FIERCE FIRE IN HOBOKEN

Flames Do Half Million Dollars Damage on the Dock Front.

MANY VESSELS BURN

Lackawanna Depot, Train Sheds, Ferry House and Immigrant Station Gone.

HELP SENT FROM NEW YORK

[By Associated Press to The Gazette.]

NEW YORK, Aug. 7.—Inside of three-quarters of an hour late tonight, fire swept away the Delaware, Lackawanna & Western Railroad Company's terminal in Hoboken; seized two ferryboats and practically ruined them, and for half an hour threatened the destruction of the entire water front in the vicinity, including the Hamburg-American and North German Lloyd steamship docks at which several big ships were lying. The property damage is estimated at between $400,000 and $500,000.

For over an hour huge tongues of flame leaped from the wooden structures on the Lackawanna docks, lighting the New Jersey and New York water fronts. For a time it threatened a loss greater than that of the big dock fire of several years ago when the North German Lloyd piers were destroyed with great loss of life.

Blazing ferryboats, cut from their docks, floated in the river—wandering fire ships which for a time endangered shipping.

The fire started on an old wooden ferryboat and, swept by a northerly breeze, communicated with the ferry house, spread to the main building of the Lackawanna, and then to the Duke's house, a famous Hoboken hostelry. The hotel was a frame structure and fell a ready prey to the flames.

By this time the flames were spreading in all directions, utterly beyond the control of the few first fire fighters who had responded to the first alarms.

Takes Street Car Plant.

Following the hotel, the structure of the Public Service Corporation—the street car operating company of Hoboken, Jersey City and nearby places—went down before the flames, but at 1 o'clock this morning the fire was under control and the big steamship piers had been saved.

The flames started from an unknown cause on the old wooden ferry boat Hopatcong which had been tied up in the open slip between the Hamburg docks and the Christopher street ferry slips. The fire was discovered about 11 o'clock. It was then leaping from the boiler room below the main deck through the engine room and attacking the wooden superstructure.

A watchman on the ferry dock turned in calls for the city department and also for the Lackawanna fire brigade. Almost before the company's men could lay a line of hose and before the city firemen could reach the scene the flames had leaped to the ferry office building between the piers, and then to the brand new ferryboat Binghamton, which was lying in the northern slip of the Barclay street line. From there it leaped in a few seconds to the high frame structure above the waiting rooms, and five minutes after the fire was seen the entire buildings, covering many acres, were burning.

There were four slips with high pilings and these burned fiercely and sent the fire forward into the freight piers. These had been destroyed for the most part by a great fire on May 29, 1904, and had just been rebuilt.

Train Sheds Burn.

From the waiting room the flames leaped into the train shed and so rapid was the spread that engines which were drawing out cars to be ready for use in the morning, had to be hurried out. Seven coaches were left behind, but there had been time enough to save about 30 others.

The two burning ferry boats were towed out into the stream by tugs. The Hopatcong sunk later.

Fire aid was quickly summoned from Jersey City and New York, the former city sending all available engines and the latter dispatching two fire boats. With this extra force the Hoboken firemen were able to prevent the fire from spreading through lower Hoboken, while the fireboats held the flames in check along the water front.

While the fire was held by the firemen

PROTEST FROM FINLAND

Demand Arrest of Russian Governor and Disbanding of the Czar's Gendarmes.

[By Associated Press to The Gazette.]

HELSINGFORS, FINLAND, Aug. 7.—Twenty thousand persons assembled in the senate square yesterday to protest against the proposal of the government to remove political offenders from the jurisdiction of the local authorities, transferring their trials to the Russian military court.

The meeting demanded the arrest of the governor and the chief of police, who it declared had fomented the disturbances which occurred last January. The meeting further insisted on the disbanding of the Russian gendarmes in Finland, the abolition of the dictatorship and censorship and the restoration of the liberty of the press. A resolution was adopted declaring that, as the present diet was too weak, an extraordinary diet should be summoned to discuss the question of universal suffrage.

The police did not interfere with the meeting.

AUTOS COME TOGETHER IN HEAD-ON COLLISION

Two automobiles were demolished in a head-on collision in Swissvale yesterday. The automobiles were the property of James Horner of Edgewood and Mr. Bishoff of Braddock. Mr. Horner claims his steering gear got out of order just as Bishoff was passing. Both automobilists had a narrow escape. Their machines were completely wrecked and had to be removed on baggage trucks borrowed from the Pennsylvania railroad station near by.

VENEZUELA WINS IN ASPHALT CASE

CARACAS, VENEZUELA, Aug. 7.—(Special.)—The federal court has rendered judgment in the appeal of the Bermudez Asphalt Company confirming all the points in the original of May 20 last, with costs. The decision further annuls the Hamilton contract and grants damages for the government. No appeal is possible.

King Oscar to Recuperate.

STOCKHOLM, SWEDEN, Aug. 7.—King Oscar will leave Monday for Marstrand, Sweden, where he will recuperate. By proclamation, Crown Prince Gustave will again be appointed regent.

BRIDGE WORKERS STRIKE TOMORROW

Executive Board of Organization Starts Fight on American Bridge Company.

MANY THOUSANDS AFFECTED

[By Associated Press to The Gazette.]

CLEVELAND, O., Aug. 7.—The Plain Dealer tomorrow will say: "Orders were issued Monday afternoon from the headquarters of the International Association of Bridge and Structural Iron Workers by Secretary J. J. McNamara, for a general strike against the American Bridge Company from Maine to California.

"It is estimated that between 15,000 and 20,000 bridge and structural iron workers will quit work. Bridge work will be tied up in many parts of the country and a number of big building projects will be delayed. The following is a copy of the strike order:

The executive board orders a general strike against the American Bridge Company to take effect Wednesday, August 9. Order includes all jobs where American Bridge Company has first contract for erection.

"The general strike, according to Secretary McNamara, was the outcome of trouble between the union and the American Bridge Company over the sub-letting of a contract to a Boston concern which the union claims is 'unfair.' A contract for bridge work was let to the American Bridge Company by the New York, New Haven & Hartford railroad under the impression that the company would employ union workers. It was stated that the company refused to consider the New Haven organization of bridge workers and sub-let the work to the Boston concern."

ESTABLISHES DEAD LINE AT FIFTY PACES

HOMEL, RUSSIA, Aug. 7.—The chief of police of Homel has issued a manifesto that, as his life has twice been attempted by Jews of the lowest classes, hereafter any such men approaching within 50 paces of his carriage will be shot. He also instructed the Cossacks to fire on houses from which abusive remarks are made.

TAGGART CLOSES HOUSE

Democratic Chairman Shuts Up His Casino Because of Gambling Inquiry.

[Special Telegram to The Gazette.]

INDIANAPOLIS, IND., Aug. 7.—Gov. Hanley has responded to complaints from citizens of Orange county against gambling at French Lick Springs, Tom Taggart's famous resort, and at West Baden, one mile away, and the casino at French Lick has been closed as a result of prosecutions which the executive proposed to institute on the strength of evidence secured by persons whom he employed to investigate.

For a month past representatives of the governor have been at French Lick and West Baden, nominally as guests, but really as spies or detectives for the governor, and as soon as their mission became known to the management at French Lick the Casino, the largest gambling hall in the west, was closed.

FIND YELLOW FEVER NEST

Health Officers Uncover Twenty-Five Cases Outside New Orleans.

CHAPELLE IS BETTER

Distinguished Victim of Scourge Will Soon Arrive at Crisis of Disease.

EIGHT MORE PERSONS DEAD

[By Associated Press to The Gazette.]

NEW ORLEANS, Aug. 7.—Two large foci of yellow fever infection were discovered today outside of New Orleans by officers of the marine hospital service. Dr. Corput went to Diamond plantation, in St. Charles parish, and found six positive cases of secondary infection. Three of the six persons were dead and three of the six were Italians. One was a negro.

The other point of infection is Patterson, St. Mary parish, where Dr. Guiteras found 19 cases of secondary infections. Most of these are also Italians. The local health boards have taken charge in both instances and are following out the directions of the marine hospital service.

The marine hospital service, under authority of President Roosevelt, was placed in complete control at noon of the scientific fight to eradicate yellow fever from New Orleans before frost. With ample funds, the best available medical talent and an army of willing workers at his back, Dr. J. H. White, surgeon in charge, hopes for a successful termination of the struggle.

The Fever Situation.

The fever situation up to 6 o'clock this afternoon was as follows:

Deaths today, 8.
New cases, 32
New sub-foci, 4.
Total deaths, 112.
Total cases, 565.
Total sub-foci, 97.

Archbishop Chapelle was reported as doing well tonight. He will pass the crisis tomorrow. The following cablegram was received by him:

"The holy father deplores your sickness. In wishing you a speedy recovery, he sends you his apostolic blessing.

"CARDINAL MERRY DEL VAL,
"Papal Secretary of State."

Will Compile Daily Record.

It was announced that the marine hospital service would soon take up the receiving and compiling of daily reports. A false impression has prevailed in some quarters that all the cases occurring were not made public, and in order that there may be perfect confidence throughout hereafter statistical announcements of the situation shall be made under federal supervision.

There was prompt response today to the appeal of Chairman Jeanvier of the citizens committee for additional physicians.

TO HALE MOORE BEFORE COURT

Pittsburgh Board of Trade Takes Decisive Action on Fenders.

MANDAMUS ORDERED

Relatives of Street Car Victims to Testify at Public Meeting Next Monday.

TO SECURE EXPERT WITNESSES

A mandamus against Director Moore of the department of public safety was ordered last night by the directors of the Pittsburgh board of trade. The action was unanimous and a committee of the board was instructed to begin the legal proceedings at once. The chairman of the committee was authorized to begin the mandamus case in his own name, should the attorney decide that the suit cannot be instituted in the name of the Pittsburgh board of trade as an organization.

Director Moore may delay proceedings by remaining in hiding at Petoskey, Mich., so as to avoid service, but as soon as he returns to Pittsburgh he is to be haled into court and must answer for his failure to enforce the law for the protection of the lives of the people of the community. According to the plans mapped out by the Pittsburgh board of trade, the oft-repeated excuses of Director Moore for not compelling the use of the fenders will not go with the court.

To Produce Expert Testimony.

The director has claimed there is not a fender in existence that will save life. He has also claimed that the street grades prevent the successful use of fenders in Pittsburgh. These arguments will be combatted by the testimony of practical street car men, expert motormen and mechanics and others from cities where fenders have been tried and found to be a success.

To bring these expert witnesses to Pittsburgh will entail considerable expense, but the board of trade is, as President Harman, Secretary Lobinger and others declare, prepared to go ahead and to keep up the fight until it is completely won and the Pittsburgh city administration is forced to do its duty.

Another important step was taken last night by the directors of the Pittsburgh board of trade. Not resting content with an action at law, the public spirited fenders is to be kept up and it was unanimously voted that an open meeting shall be held next Monday night, at which every person who has had a relative killed or maimed by street cars shall be invited to appear and give testimony.

Victims' Relatives to Testify.

If they cannot attend the meeting in person, they are requested to write to the Pittsburgh board of trade and give their experience with fenderless street cars. It is believed that the testimony of the nearest of kin to the victims of fenderless street cars will greatly aid in the movement. This is expected to develop some of the methods employed by street car companies in preventing cases of damages getting into court.

The meeting of the directors of the board of trade last night was largely attended. Notwithstanding that it is midsummer and that three or four directors are out of the city, 16 of the 18 members answered to their names. President T. D. Harman presided.

A. G. Roenigk, chairman of the committee on fenders, made his report to the effect that Director Moore had skipped out of the city to avoid litigation, that the city council committee on fenders had failed to meet and that there was no longer the slightest hope of the city administration doing anything.

The board of directors then promptly decided, without debate, that it was useless to look to Mayor Hays or Director Moore to enforce the law except when compelled to by the court. It was decided to go ahead with mandamus proceedings without further delay.

Moore's Arguments Disproven.

Mr. Roenigk, chairman of the committee on fenders, was instructed to bring suit against Director Moore in his own name if the committee found that the action could not be brought in the name of the board of trade. One of the directors proposed that a mandamus should be issued against Chief of Ordinance Officer Murray G. Livingston, but this was opposed, as was also the proposition to mandamus the mayor, because the ordinance provides that the fender used by the street car company shall be approved by the chief of the department of public safety, who is Director Moore.

Dr. R. C. Clark, one of the directors of the board, told of some of the things he had seen and learned about street car fenders on his recent trip through the west to the Pacific coast. His observations do not agree with the opinions of Director Moore. He said he saw fenders in successful use in the cities of Denver, San Francisco, Seattle, Spokane, St. Paul and Minneapolis.

The same thing be found true in San Francisco, where there are 22 per cent grades, far in excess of any grades in Pittsburgh, and cars with fenders are run on those grades.

Council Committee Called.

Unable to stem the fender agitation, Mayor Hays, since Director Moore has taken to the Michigan woods, is endeavoring to allay public feeling to some extent by declaring that he has taken the fender matter back into his own hands, after giving it up in disgust to Director Moore. The mayor said yesterday that he was willing to go so far as to predict that there would be fenders on all the street cars in Pittsburgh within a year. When the year ends he will no longer be mayor. He said he had expectations of another fender test this week.

Another evidence that the city administration is at last becoming alive to public sentiment is the fact that yesterday Common Councilman Andrew Pfundstein announced that he would call a meeting of the fender committee of council for Friday afternoon.

THREE-INCH GUN TEST IMPORTANT TO SHARON

Upon the Decision at Indian Head Today Will Depend That Town Building Many Field Pieces.

[Special Telegram to The Gazette.]

SHARON, PA., Aug. 7.—The officials of the Driggs-Seabury Ordnance Corporation are eagerly awaiting the result of the test of the new three-inch, or 15-pound, semi-automatic gun, which will take place at Indian Head tomorrow. Much depends on the outcome of this test for if the government decides the Sharon gun is the best it means a large order.

The special feature of the gun is the device by which the recoil from the firing of the charge automatically ejects the cartridge and makes ready for reloading. Not only does it do away with the necessity for one man in the gun's crew, but it enables faster work.

Another important test is the tearing apart of the gun and reassembling its parts. The officials are looking forward to the test with the utmost confidence.

STRIKE GROWING SERIOUS.

Northern Pacific and Great Northern Trainmen Will Not Receive Orders by Telephone.

MISSOULA, MONT., Aug. 7.—Strike conditions on the Rocky Mountain division tonight are regarded as serious. While some passenger trains are coming into Missoula on time, others are several hours late. Telegraph wires have been broken during the last few days, and Missoula has been almost isolated.

Yesterday trainmen decided they would accept no more orders by telephone.

FINDS M'KEESPORT GIRL WEDDED IN GYPSY CAMP

Quaker City Policeman Runs Across Her While Looking for Another Missing Young Woman.

[By Private Wire to The Gazette.]

PHILADELPHIA, Aug. 7.—While the police were trying to find Beside Siurgis, a 15-year-old girl who was reported as having run away from her home in Clifton Heights a week ago and is supposed to have joined a gypsy camp, they found another American girl who left her home at McKeesport to join a party of nomads and lead the gypsy life.

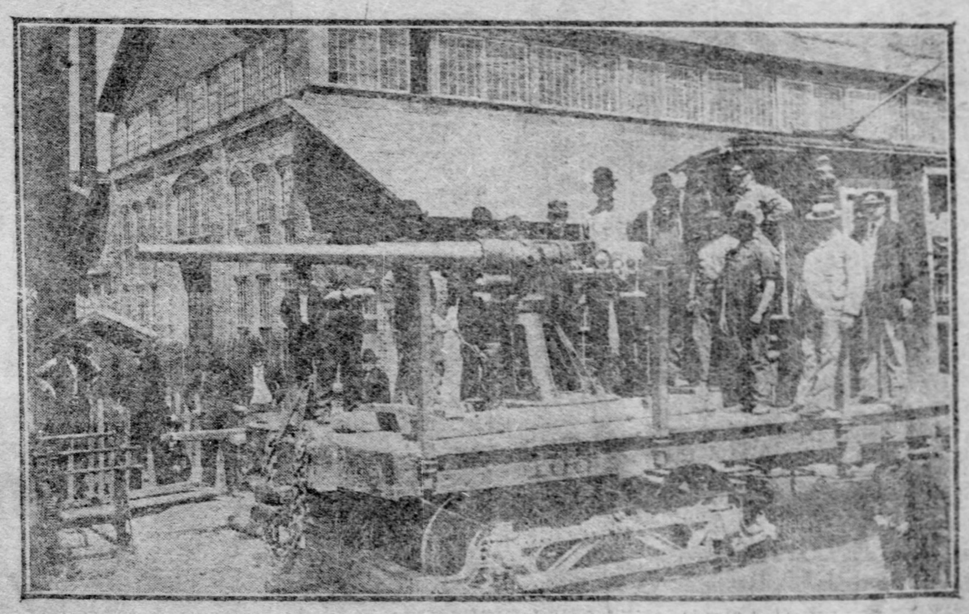
The discovery was made by Special Officer Cross. As he approached the camp he saw an American girl seated near a small tent, sewing. At first the girl would not reply to his questions, but finally she told the officer she was not the girl wanted. She said she had left her home in McKeesport several weeks ago, to join the gypsies, and that she was the wife of one of the younger men of the tribe.

The girl produced her marriage certificate and offered other proofs which convinced Cross she was not the girl wanted. Before marriage her name was Sadie Shaw.

ROBBED WHILE HIS BACK IS TURNED

LANCASTER, PA., Aug. 7.—This afternoon while City Treasurer E. M. Kauffman's back was turned a thief slipped into his office in city hall and stole a box containing $678.76 from the safe which was unlocked. William Kirchoff and John Parker, employes of the garbage department, have been arrested on suspicion.

NEW THREE-INCH GUN TO BE TESTED TODAY



WITTE ARRIVES AT PORTSMOUTH

Russia's Chief Envoy Declares the Japanese Reports Are False.

RUSSIAN JEWS CHEER HIM

[By Associated Press to The Gazette.]

PORTSMOUTH, Aug. 7.—Serglus Witte, senior member of the Russian peace mission arrived in Portsmouth by rail from Boston at 11:15 o'clock tonight, and it is expected that the peace squadron having on board the other men who will participate in the coming conference will drop anchor in the harbor by 10 o'clock tomorrow forenoon.

The ceremony of formally welcoming the distinguished foreigners to the state of New Hampshire will be carried out in full during the day, the program which was arranged for today, having been left entirely unchanged. The Portsmouth navy yard tonight, a wireless message was received stating that the dispatch boat Dolphin, having on board the Japanese representatives was off Cape Cod, 75 miles distant, at dark. The vessel was steaming slowly, and it was expected she would reach Portsmouth about 9 o'clock in the forenoon.

On the way from Boston, Mr. Witte dictated a statement concerning dispatches from Toyko, as follows:

I have read in the telegrams from Tokyo that the Japanese captured 40,000 Russian soldiers at the island of Sakhalin during the recent operations there. Now, so far as I know, the whole garrison in Sakhalin island consists of no more than 4,000. It is a known fact that the Russian soldiers do not surrender, and if we take into consideration that some of the soldiers of the island garrison were killed, then the number of the captured could not even reach 4,000.

I do not wish at all to minimize the successes or bravery of the Japanese, but at the same time, all the people of Russia and myself cannot help being surprised at the cables which have reached us during the war from Tokyo. According to them, if all the Russian soldiers which have from time to time been reported from Tokyo as captured, killed or wounded, had in fact been captured, killed or wounded by the Japanese, Russia would not at this time possess any army at all, and then my journey to the United States would be quite superfluous.

BOSTON, Aug. 7.—Before the special train bearing Mr. Witte and his party pulled out for Portsmouth, N. H., tonight, about 100 former residents of Russia, many of them Hebrews assembled near Mr. Witte's car and cheered him. The envoy appeared on the rear platform and spoke in Russian in a conversational way for several minutes. He asked his hearers how they liked America and whether they preferred this country to Russia.

Several of the audience replied in effect that they liked America better as there were more opportunities for advancement. At the conclusion of Mr. Witte's informal remarks the crowd cheered him, which he acknowledged by removing his hat. As the train pulled out one of the Hebrews shouted: "Give freedom to the Jews."

CHICAGO, Aug. 7.—Mr. Pokotilow, Russian minister to China, and his secretary, Ivan Rojestivensky, today passed through Chicago on the way to Portsmouth, N. H., to attend the peace conference.

Vladimir Wants No Quibbling.

ST. PETERSBURG, Aug. 7.—The members of the council of ministers are again in session at Peterhof today. In view of the fact that the main provisions of the national assembly project have already been approved, Grand Duke Vladimir has urged that it would be inopportune to quibble over details.

FIERCE HOBOKEN FIRE

Continued from First Page.

to the north and west it was spreading along the freight piers to the southward where only tugs and fireboats from Manhattan could attack it. Here it caught the new immigration station. This building was of brick and stone and had been occupied only two weeks. It cost $70,000, and was supposed to be fireproof, but was soon a mass of fire.

Just as the alarm was given the men on the railroads terminal bridges were making ready for the arrival of boats from New York. The captains of the approaching ferryboats, however, saw the fire and stopped their heavily loaded craft.

There were few persons in the waiting rooms at the station, and they fled through the train shed into Hoboken.

The destruction of the trolley terminal involved the burning of the wires and that tied up a large section of the trolley service in Hudson county. The railroad company has arranged to run its trains into its yards outside the burned district tomorrow.

IS FORCED INTO CRIME.

Strange Story Told by a Youth Arrested for Burglary in Beaver County.

BEAVER, Aug. 7.—(Special.)—Edward Milo, aged 15, was sent to Morganza today. He confessed to being implicated in the robbery of the Fort Wayne railroad station at Economy, about six months ago, after having been arrested for an attempted burglary at Leetsdale.

He stated a man, a stranger, had forced him to assist in the robbery. Since then they traveled together, robbing freight cars. He did not know the man's name, but from the description he furnished it is believed he will be captured. The boy said the man had compelled him to go with him after the Economy robbery and he soon became accustomed to the work and enjoyed it. His story amazed the court, as he told it without reserve or embarrassment, but he broke down and cried when sentenced to Morganza.

IS TOO PROUD OR TOO POOR TO PAY

Kaneko Says This Is What Japan Hears Concerning Russia and Indemnity.

HIS PEOPLE NOT WORRYING

[By Associated Press to The Gazette.]

OYSTER BAY, N. Y., Aug. 7.—Baron Kaneko, the Japanese financial expert, visited Sagamore Hill late this afternoon by appointment for a conference with the president. Assurance was given both by the president and Baron Kaneko that the visit had nothing to do with the pending peace negotiations nor with a loan for either Japan or Russia.

Baron Kaneko chatted with apparent frankness about himself and about the conditions of his country.

"A financial agent of Japan?" he repeated in response to a suggestion. "Oh, no, I am not a financial expert. Takahashi was a financial expert, but I am merely a man of leisure, stopping in this country because I enjoy being here. This is a wonderful country, and the Americans are a wonderful people. Their friendship will never be forgotten by Japan. The noble work President Roosevelt has done in the interest of peace will be remembered always. It is the prayer of all of us that his effort may be crowned with success."

"What do you think of the possible result of the peace negotiations?" Baron Kaneko was asked.

"Doubt is expressed whether the envoys can reach an agreement," he replied cautiously. "The more I read and hear of what Witte and Sato say, the more puzzled I become. I do not think anybody knows."

"What is the feeling in Japan as to a continuance of the war?"

"Oh, I think there is little general sentiment about it. Our people are not seriously concerned, being certain of the ultimate result. Of course, we should like to have peace, but in Japan there are no people who desire peace at any price. They are willing that the war should go on, if necessary, and are prepared to fight it out. The Russians, we are told, are too poor or too proud to pay an indemnity, the indemnity Japan will ask."

"As much as a billion dollars?" was suggested.

"No, too poor to pay the indemnity Japan will ask," insisted Baron Kaneko. "But who can tell what indemnity Japan will demand? As I said, nobody but the envoys knows what it may be. I do not and know nobody who does.

"Japan shows little if any evidence of the war. Business is prosperous, the people are going on attending to their usual affairs, and there has been no falling off in either domestic or foreign trade. New business enterprises and industries are being launched, and the commercial enthusiasm of the people cannot be restrained.

"The people manifest little or no anxiety for news from the battlefields, because they have no possible doubt of the result of the conflict. Nobody in Japan has lost either his head or his sleep over the war."

MANILA HAS FETE DAY.

Mr. Taft and Miss Roosevelt Share Honors in Most Imposing Public Reception.

MANILA, Aug. 7.—Maj.-Gen. Corbin gave a dinner this evening to gentlemen of the Taft party. Rear Admiral Enquist of the Russian navy, and his staff, were present. Gen. Corbin toasted President Roosevelt and Secretary Taft toasted the Russian emperor. Rear Admiral Enquist, who was much affected, then arose and made a profound salutation. At the same time Commissioner Forbes entertained Miss Alice Roosevelt at dinner.

At 8 o'clock 3,000 persons attended a brilliant reception given by Gov.-Gen. Wright at the Malacaacanan palace. Those present from highest officials and most prominent citizens to the humblest natives were greeted by Mr. Taft and Miss Roosevelt, who shook hands with all. Rear Admiral Enquist and his staff were present. Spanish residents say that the reception surpassed any in the previous history of Manila.

CABLES ARE BREAKING.

Vandals Are Suspected of Tampering With Wires in Lower Allegheny.

The Allegheny police and the telephone companies operating in Allegheny are of the opinion that vandals are at work tampering with wires and cables on the poles in lower Allegheny. The Pittsburgh & Allegheny Telephone Company reported last night that a cable in Locust street and another in Pennsylvania avenue had fallen, in both instances breaking down trees and obstructing traffic.

A serious break was discovered Sunday night at Nixon and Gladstone streets, where a Central District and Printing Telegraph cable fell and took down with it a large number of city light wires. The cables in the Manchester district are all new, and there is evidently no explanation of their breaking except that it is the work of persons conspiring to interfere with the business of the companies.

GRECO HAS DIRK READY.

Unable to Use It, as Detective Was Too Quick for Him.

Anthony Greco of Washington, Pa., was arrested yesterday by Detectives Aymer and Demmel on suspicion of being one of the three men who robbed Bruno Torchia of $700, near New Kensington on the night of July 26. Greco had $76 on his person, and from papers found in his pockets it appears that he recently sent money to Italy.

Aymer says Greco knows him by sight, and as the detective approached him on Wylie avenue near Tunnel street he took out a clasp-dirk, opened it and put it in his coat pocket, keeping his hand on it. He was unable to use it, as Aymer grasped his hand.

OLDEST POLICEMAN STRIKES.

Akron's Centenarian Officer Refuses to Work Unless He Gets Paid.

Is a Public Charge.

AKRON, O., Aug. 7.—(Special.)—Tommy Dillon, aged 110, the oldest policeman in the world, threw up his job today when he learned he was receiving no pay. He had been a city charge for several years, but he overlooked that.

He refused to go back to his post at the public swimming pool and threatens to bring suit against the city on account of his age. Dillon's appointment on the local force was noted all over the country, and it was said everywhere that he was the oldest policeman in the world.

HOMESTEAD OFFICIALS QUIT.

Superintendent of Public Works Resigns and No Successor Is Chosen.

Homestead council last night accepted the resignation of Superintendent of Public Works Edwin B. Lyons. His successor was not appointed.

The Homestead school board meeting aroused a warm discussion over the election of a successor to Edward Rott, a school director of the Fourth ward, who had removed to Munhall. David Edwards was elected. The resignation of G. V. L. Wickerham, school director from the Fifth ward, was accepted, but a successor could not be agreed upon.

PINE CREEK VALLEY TO HAVE BIG OUTING

The board of trade of Etna and Pine Creek valley last night set August 23 as the day for the outing of the residents of that district. The affair will be held at Luna Park, and a big attendance is expected. Children are to be admitted free of charge. An agitation is to be started by the organization for better street car service, and an effort is to be made to have the postoffice re-established in Etna, which for four years has been a sub-station of the Allegheny postoffice.

J. P. MORGAN IN CONFERENCE WITH PRESIDENT ROOSEVELT

Peace and Hankow Railroad Said to Have Been Responsible for Great Financier's Visit to Oyster Bay in His Big Steam Yacht, Corsair.

[By Associated Press to The Gazette.]

OYSTER BAY, Aug. 7.—J. Pierpont Morgan of New York had a conference today with President Roosevelt lasting an hour and a half. The president himself is authority for the statement that it related practically entirely to the affairs of the Hankow railroad in China, a controlling interest in which is owned by J. P. Morgan & Co. Incidentally, and as relating in a measure to the railroad interests held by Americans in China, the pending peace negotiations formed a topic of consideration by the president and Mr. Morgan.

Mr. Morgan came to Oyster Bay unheralded. While his visit was by appointment, nothing concerning it was permitted to leak through official sources after he had gone.

Shortly after noon, Mr. Morgan's big steam yacht, the Corsair, anchored in the lower bay, about three-quarters of a mile from the dock of the Seawanhaka-Corinthian Yacht club on Center island. When observed from the shore, she was flying the absent flag, indicating ordinarily, that her owner was not aboard. Nevertheless he was there and in a few minutes entered a steam launch from the vessel and started for the shore. Instead of landing at the J. West Roosevelt pier, where visitors to the president who arrive by water usually land, the launch conveyed Mr. Morgan to the beach of W. Emlen Roosevelt where he went ashore. He was obliged to walk a little distance to the roadway where one of the president's carriages was in waiting for him. He was driven directly to Sagamore Hill, arriving there about 1 o'clock. He remained for luncheon with the president and Mrs. Roosevelt and for some time afterward.

The suggestion was made that Mr. Morgan's visit, and that of Secretary Shaw a little earlier, might be more than a coincidence, but it can be said authoritatively that they had no relation at all with each other. Secretary Shaw and Mr. Morgan did not meet, and the purposes of their visits were entirely different.

REVOLVER DUEL FOUGHT BY DARK IN BACK YARD

W. F. Kane of Lombard Street Finds a Negro Burglar Early Sunday Morning.

As the result of a revolver duel between W. F. Kane and an unknown negro about 3 a. m., Sunday, the residents in the vicinity of Lombard and Dinwiddie streets are hopeful of the police finding the colored burglar who has for some time past been entering houses in that section.

Kane is a railroader and on Saturday night worked late. Upon returning at 3 a. m. he started to enter the house from the back door when he heard a noise. He supposed it was his brother and called out: "Is that you, Tom?"

The answer was, "I'll show you who it is, you white dog," accompanied by a revolver shot, the bullet flying close to his head. By the flash he saw the negro and drew his own revolver. In the next minute a dozen shots were exchanged and the negro fled, his progress being impeded by the gait Kane had locked as he came in. A cry of pain from the intruder led Kane to suspect that he had winged his man, who got away.

There was enough light during the melee to allow Kane to gain a good idea of the appearance of the negro, and the description he gives tallies with that furnished by other residents of the neighborhood, who had seen a negro hanging around that section, and had lost articles from their houses. Several of these saw the man running away. Policemen attracted by the shots appeared on the scene in a few minutes, but so far no capture has been made.

NEW CABINET IN HOLLAND.

It Succeeds the Body Which Resigned July 3 Last, Because of General Election Result.

THE HAGUE, Aug. 7.—A new cabinet was formed today under the premiership of G. A. VanHamel, professor of philosophy at the University of Amsterdam. Jonkheer R. De Marees Van Swinderen, minister at Washington, has been appointed minister of foreign affairs. Premier VanHamel also takes the portfolio of minister of justice. Other members of the cabinet are: Minister of the interior, Deputy Rink; minister of finance, Herr Demeester; vice president of the council of the East Indies and minister of marine, Capt. Cohen Stuart; minister of war, Gen. Staal; minister of public works, trade and industry, Herr Kranz; director of the technical university and minister of agriculture and labor, Herr Veegens; minister of the colonies, Deputy Fock.

The cabinet headed by Dr. A. Kuyper, appointed July 31, 1901, resigned July 3 last, owing to the result of the general elections which sent a majority of anti-ministerialists to the second chamber of the states general.

COLORED HOME IS OPENED.

Institution for Working Girls Planned on Booker T. Washington Methods Established on the Hill.

The Industrial Home for Colored Working Girls, at 2816 Wylie avenue, was opened last night. The institution is modeled after those in Washington, Richmond and other southern cities, and plans to provide a living place for homeless colored girls of the two cities. Booker T. Washington's idea of providing an education and home training is incorporated in the home, and the encouragement of some of the leading educators of the country has been given to those who are assisting in the establishment of the institution.

The Rev. Da R. C. Fox, pastor of the Carron Street Baptist church, made the dedicatory address. The response in behalf of the home was made by the Rev. G. W. Johnson, pastor of the John Wesley A. M. E. Zion church, and singing by the Carron Street church choir followed. The jubilee will continue all week, ending with a rally and silver offering next Sunday. Mrs. Jennie C. Kernan will be matron of the home.

HELPED LAY CORNERSTONE.

Chairman Shonts and Governor Magoon Participate in a Church Ceremony at Colon.

COLON, Aug. 7.—Dr. Manuel Amador, president of Panama and Senora Amador; Gen. Santiago De La Guardia, minister of foreign affairs and of war; Alcalde Ossa, Charles G. Magoon, American minister and governor of the canal zone; Theodore P. Shonts, chairman of the canal commission, and other prominent persons came to Colon from Panama yesterday to attend the laying of the corner stone of a new Catholic church.

The visitors found the city decorated with flags in honor of the first visit of President Amador.

Addresses were delivered by the Rev. Father Arjona in Spanish, and the Rev. Father Russell of the canal zone, in English. President Amador and Gov. Magoon together laid the cornerstone.

After the ceremony President Amador, Gov. Magoon and Chairman Shonts, together with the others of the party, were given a banquet at the Washington hotel.

BEATS VISITOR WITH CRUTCH.

One-Legged News Agent Plays Havoc, and House Is Raided.

The wrath of Joseph Williams, the one-legged news agent near the Union station, resulted last evening in Tony Dumbrosky, a Pole, being beaten with Williams' crutch. Dumbrosky's nose was broken by the first blow, and by the second his scalp was laid open.

The trouble started at Williams' house, 1213 Liberty avenue. The noise created by the fight brought two policemen, who raided the place as disorderly. Williams and three visitors were sent to No. 3 police station, while Dumbrosky was sent to the West Penn hospital.

Got Into Trouble Sure Enough.

Rose McNeill of Harlette street, Hankin, had a gold watch torn from her shirtwaist yesterday in the "House of Too Much Trouble" at Kennywood park. In the dark passages she became separated from her companion. A young man turned a corner suddenly and ran against her. When she emerged into the light she found her watch was gone.

HODGE WILL FIGHT AGAINST EXTRADITION

Pittsburgh Chauffeur Says He Is Sorry for the Italian, but 'Twas an Accident.

[Special Telegram to The Gazette.]

BUFFALO, N. Y., Aug. 7.—It seems certain tonight that extradition in the case of Frank Hodge, wanted in Pittsburgh for running down of an Italian, will be fought. Tracey C. Becker, attorney for Hodge, stated tonight that he would announce tomorrow the course he would pursue. Detective Lally of Pittsburgh, conferred with the prisoner and Becker, this morning, after which it was announced by Judge Murphy that the police court hearing, which was to have been held this morning, would be adjourned to Thursday. Hodge will remain at liberty on the bail already furnished. If Gov. Higgins honors the requisition papers from the governor of Pennsylvania before Thursday there will be no police court hearing to determine if the prisoner shall be held as a fugitive from justice. The honoring of the requisition papers will be met by habeas corpus proceedings on the part of Attorney Becker.

Attorney Becker stated tonight that his client made a mistake in leaving Pittsburgh, but now that he is here, every effort will be made to protect him in his rights. It is claimed by Hodge that the running down of the Italian was an accident and that it occurred in a parkway, where the Italian by rights should not have been walking. The remarks attributed to the prisoner that he did not care if he did run down the Italian, Hodge denies. He says he is sorry for the accident, but could help it.

Hodge is well known in Buffalo, and is an expert chauffeur. His many friends stand by him in his trouble and promise the best legal aid.

Superintendent of Detectives McQuaide last night received a telegram from Harrisburg, saying that the Hodge requisition papers would not be ready until Wednesday, as Gov. Pennypacker is away. McQuaide is confident that the governor of New York will grant extradition papers.

SLIGHT SKIRMISHES.

Russian Forces Drive Japanese Back to Fortifications—Mouth of Amur Being Mined.

ST. PETERSBURG, Aug. 7.—An official dispatch received today from Gen. Linevitch reports that on August 2 the Russians approached the villages of Nenchenchensi and Sulelinchun, forcing the Japanese to evacuate their frontal positions and retreat to their fortifications. The following day the Japanese advanced, but were forced to retire. On August 2, also, the Russians drove the Japanese from the village of Landunchensi, 12 miles south of Taogau.

TOKYO, Aug. 7.—It is reported that the Russians are vigorously fortifying the mouth of the Amur river. It is understood that the channels approaching the river have been mined.

The former Russian cruiser Bayan will start from Port Arthur under tow for Japan about August 15. The Poltava and Peresviet will leave in a week under their own steam.

THINK STORY A HOAX.

Coroner Gets Letter Signed "Berrypicker" Telling of Murdered Girl Near McKees Rocks.

Coroner Joseph G. Armstrong yesterday received an anonymous letter signed "Berrypicker," telling a story of outrage and murder. The writer stated that while picking berries near McKees Rocks he found the body of a 15-year-old girl, who had evidently been assaulted and murdered. Not caring to be brought into the case he had taken this means of notifying the coroner. While believing the postal card to be a hoax, the coroner sent Deputy Coroner Laidley out on the case.

Laidley had not been heard from late last night, but the chief of police of McKees Rocks, of whom inquiries were made, said that after the deputy coroner told him of the report he sent out men to investigate, following the directions as to location given by "Berrypicker," and they had been unable to find the body. He thought there was nothing in the case. If the writer of the card can be found the coroner will deal severely with him.

A KEYHOLE PEEP IN TAGGART HOUSE

Little Pittsburgh Girl Says She Saw Mrs. Taggart and "Billy" Holding Hands.

MANY DEPOSITIONS ARE READ

[Special Telegram to The Gazette.]

WOOSTER, O., Aug. 7.—A little girl, and a keyhole were important factors in today's evidence in the Taggart divorce case. Little Fannie Everly of Pittsburgh, gave the court and audience a short "squint" through a keyhole in Mrs. Taggart's home at Orrville, and there in the room seated side by side and holding hands they saw Mrs. Taggart and the irrepressible "Billy" Taggart, Maj. Morton in his deposition, gave another sensational piece of testimony when he said:

"There was nothing whatever the matter with Capt. Taggart when he was ordered confined in the hospital at Fort Leavenworth. Gen. Tanner wanted to keep Taggart in a place where he could not talk."

Interest in the trial continues unabated, and there was the usual scramble for seats when the doors of the courtroom were opened this morning. It is said that Maj. Taggart will go on the stand Tuesday afternoon. Mrs. Taggart sat at her attorneys' table today and conferred with them on many points in the evidence.

Taggart a Model Husband.

The first matter taken up was the unfinished deposition of Maj. Morton, which was begun on Saturday. He stated that Capt. Taggart always treated his wife and children in a manner to make him a model for other husbands and fathers. Capt. Taggart drank a little in moderation, said Morton, and was perfectly sober, his mental condition perfectly usual, and he was not in the least bit nervous or excited when Gen. Tanner telephoned to him (Morton) at the Ripley range to send Taggart to headquarters. It was not the custom of the women at Fort Leavenworth to smoke cigarets. The reason that most persons gave at the post for the confinement of Taggart was that "Gen. Tanner desired to keep Taggart in a place where he could not talk." Morton said: "I called at the hospital to see Capt. Taggart, and was informed by the sentry in charge that he was allowed to see no one. I saw Taggart when he went into the hospital, and he was perfectly sober and was perfectly sound mentally. On the books of the hospital it was stated that Taggart was confined for acute alcoholism, but it was a lie, and intended to cover up the real reason."

Part of Col. John Van Hoff's deposition for the defendant was then taken up. He is a colonel and assistant surgeon-general in the army and stationed at Fort Leavenworth. He said: "On July 1, 1903, the morning after the alleged assault by Capt. Taggart, I called with Gen. Tanner on Mrs. Taggart, and found her in perfectly normal condition, but her face was somewhat swollen and bruised. I saw Capt. Taggart when he was confined in the hospital, and he was not a victim of acute alcoholism."

Hoff stated that he lived about 100 feet from the Taggart residence and that the windows of the bedroom were up on the night of June 30, but they heard no more of the conversation at the Taggart home.

What a Key Hole Revealed.

Fannie Everly, aged 13, of Pittsburgh, but formerly of Orrville, then took the stand. She said: "I lived with my parents next door to Mrs. Taggart at Orrville and saw 'Billy' Taggart at Mrs. Taggart's nearly every day. One afternoon while playing with Culver (Mrs. Taggart's boy), Culver happened to look through the keyhole into the parlor and saw Mrs. Taggart and 'Billy' sitting on two chairs side by side and holding hands. Culver then called to me to take a peep and I saw the same thing. They heard us at the door and 'Billy' came out and offered us a nickel to go out in the yard and play."

Lizzie Yost of Orrville then took the stand. She lived across the street from the home occupied by Mrs. Taggart. Her testimony related principally to seeing "Billy" Taggart make frequent visits to Mrs. Taggart's home. Augusta Reidle, who also lived near Mrs. Taggart in Orrville, stated that she saw "Billy" frequently on the Taggart premises.

Ralph Mirach, who worked at the Hurd house in Orrville when Mrs. Taggart was stopping there, testified that at the time "Billy" often occupied a room at the hotel, that on one occasion he saw "Billy" enter Mrs. Taggart's room and remain there with her about an hour.

The deposition of Capt. Edwin F. Cole, who served with Capt. Taggart at Fort Thomas, Tampa, Fla., and Fort Leavenworth, was read. Cole stated that Taggart was always fond of his children and he never knew of Taggart being intoxicated. The deposition of Capt. Wendell Simpson, stated that he and Taggart had been stationed together during most of their army career; that Taggart was always fond of his wife and kind and polite to her.

Mrs. Taggart Came Home Late.

The deposition of Maj. Thomas H. Reece, who lived in one-half of the house which Capt. Taggart occupied at Fort Leavenworth, was read. On the evening of June 30 he spent a couple of hours with Capt. Taggart and at that time Taggart was perfectly sober. That night about 11:30 he saw Mrs. Taggart, accompanied by a man, come to her house, try the front door, go away and return an hour later. Taggart came to the door and let her in. Maj. Homer Bundy's deposition stated that he never saw anything but kind treatment on the part of Capt. Taggart toward his wife and children. The deposition of Capt. Benjamin W. Atkinson was to the effect that Capt. Taggart was never known to be intoxicated, and that he was very domestic in his life, always greatly attached to his wife and children. At this point court was adjourned for the day.

Lively Time at Rope's Hearing.

The hearing in the mayor's court of the perjury charge against Percy Rope, who had testified that Mrs. Taggart bought beer and gave it to her sons at Hocke's cafe, drew a crowd this evening. Heffelfinger, the bartender, swore that Mrs. Taggart never bought beer there. Mrs. Taggart swore that she never drank beer there. In the cross-examination Mr. and Mrs. Rope became involved in a wordy fight with Capt. Taylor for the prosecution. During the hearing Mr. Sterling, for Rope, accused James Shields, Mrs. Taggart's brother-in-law, of telling the witnesses what to say. Shields lost his temper and shook his fist under Sterling's nose. Capt. Taggart also became incensed by a remark of Capt. Taylor's and for a time it looked as if he was going to start a fight. The hearing was continued until Saturday.

SETTLE OIL DEAL TODAY.

Mellon Interests Will Make Known Their Decision on Western Pipe Line Project.

W. L. Mellon, president of the J. M. Guffey Petroleum Company, who has been east for several days, will return to Pittsburgh this morning and meet the western representative of the project to build a pipe line from the Kansas and Indian Territory oil fields to the gulf.

At this meeting the relation of the Mellon financial interests to the project is likely to be settled, the western interests having sought the co-operation of these Pittsburgh bankers to finance the plan.

It was announced yesterday that John M. Milliken, an Allegheny civil engineer, had left Porto Rico to investigate for the J. M. Guffey Petroleum Company the advisibility of establishing a depot in that island and shipping Texas oil there in tank ships and barges.

WILL BEGIN FIGHT ANEW

tions to the fund of $250,000 desired by the government. In addition, Mr. Jarvier today telegraphed to Gov. Blanchard asking the state's assistance in securing the money desired to fight the fever. Unsolicited checks have been sent from other parts of the country, and the whole fund will be fully subscribed, it is believed, before it is wanted.

An evidence of the panicky feeling in the country parishes is shown in the experience of the Cumberland Telephone Company. At Arcadia, La., the man in charge of the telephone office fled when the fever began to spread. The telephone company tried to fill the position, but Arcadia refused to permit a man to come to work, and the service has been suspended.

Telephone Operators Flee.

A similar situation prevails at Baton Rouge. The Baton Rouge telephone exchange serves much of the surrounding country, and all that region is without telephonic communication.

The death reported on the Bell plantation in Jefferson parish, across the Mississippi river from New Orleans, is the fifth that has occurred there, showing the heavy mortality from the fever where adequate attention is not given. Five Italians died from New Orleans to the Bell plantation, and all have died of yellow fever. The vicinity has been thoroughly isolated and disinfected.

One incident out of the ordinary is the death of Emile M. Lopez, a boy. After his death had been reported the board of health gave permission to hold the body 24 hours before burial. While the boy lay in the coffin the mother embraced her dead son and thought she detected signs of life. Physicians disproved her suspicions.

Some docking houses report a number of towns have quarantined against drugs. In 1897 the quarantine was general over the south against every character of freight, including medicines, but this year many towns have excepted certain classes of freight and most of them are glad to get medical supplies.

PREPARES FOR FEVER.

State Health Commissioner Orders Precautions Taken at the Quaker City Barracks.

PHILADELPHIA, Aug. 7.—(Special.)—At the monthly meeting of the quarantine board of Pennsylvania, held at the quarantine station this afternoon, it was decided every precaution should be taken to place the station in a position to handle any yellow fever cases that might possibly arrive by way of incoming ships. At the barracks, where such cases would be treated, Dr. Samuel S. Dixon, state health commissioner, ordered that several beds be canopied with netting, and that entrances to the barracks be not only screened, but that a wire vestibule be built about each door to make certain the imprisonment of any germ-infected mosquito that might show itself after a case of the disease had been received.

TO QUARANTINE COAST.

Government Orders Revenue Cutters to Gulfport, and May Press Smaller Craft Into Work.

WASHINGTON, Aug. 7.—In addition to the revenue cutter Winona, now at Gulfport, Miss., the revenue cutters Forward at Key West, the Hamilton at Tampa, and the Seminole at Wilmington, N. C., have been ordered to Gulfport to maintain the national quarantine under the instructions of Capt. W. G. Rose, chief of the revenue cutter service.

Other and smaller boats may be needed to make an effective patrol, and to this end any boats required will be employed, the revenue cutter flag hoisted over them, and a revenue cutter officer put on board. They will then be, to all intents, government vessels, and will have the same jurisdiction as the revenue cutters, which will enable them to go into any waters.

Rigid Quarantine at Memphis.

MEMPHIS, TENN., Aug. 7.—The rigid quarantine decided upon by the city council was put in operation at noon today. Armed guards were placed about the city and inspectors are on every train. No one can enter this city from any direction without a permit from the Memphis board of health.

Embargo on Bananas and Laundry.

CHATTANOOGA, TENN., Aug. 7.—The city board of health today put a rigid embargo on bananas. It also forbids the laundering of Pullman bedding here during the prevalence of the fever at New Orleans.

NEW YORK, Aug. 7.—One passenger and two of the crew of the steamer Comus, which arrived from New Orleans this morning, were transferred to Hoffman island for observation, all of them showing a high temperature.

WILL NAME DIRECTORS.

Meeting of Equitable to Be Held in September Will Select Thirteen Men for the Board.

NEW YORK, Aug. 7.—Former President Cleveland today had a brief conference with President Paul Morton of the Equitable Life Assurance Society, regarding the naming of directors to fill the vacancies in the Equitable board. Mr. Cleveland said:

"We have arranged for a regular meeting of the trustees to take place in September, when the stock will be voted on. In addition, 13 new directors will be chosen, and such other vacancies as may occur in the directorate of the society will be filled."

PRINCE IS ARRESTED FOR PHOTOGRAPHING A FORT

BERLIN, Aug. 7.—Prince Friederich Henry, eldest son of Prince Albrecht of Prussia, was arrested as a spy at the east battery in Swinemunde, Pomerania, Saturday. The prince was in ordinary dress and was photographing the environs of the fort. When apprehended he said he was Prince Friederich Henry, but the guards told him they were "not to be fooled." The prince went quietly with one of the guards to the commandant of the fortress, who recognized him and ordered his release.

ANNOUNCEMENT TO THE TRADE

For Linseed Oil, White Lead and Paints

A very destructive fire on Sunday morning, August 6th, damaged our Linseed Oil Plant to a considerable extent. Fortunately our offices and Warehouse No. 1, which has tank and barrel storage and adjoins our Linseed Oil Mill, was not damaged by fire or water, and as we had considerable stock of both Linseed Oil and Oil Meal stored here, as well as at our Warehouse No. 2, situated at Washington Ave. and P. F. W. & C. R. R., we are in position to assure the trade that all orders with which we may be favored will be filled promptly and receive the same careful attention as formerly.

THIRTEENTH MEN PUT ON GUARD

Ward Has Organized a Permanent Association to Prevent Issue of School Bonds.

NAME VIGILANCE COMMITTEE

Citizens of the Thirteenth ward have organized the Thirteenth Ward Taxpayers and Voters' association. The object is to prevent the issue of $300,000 worth of school bonds. It is also willing to take up any other question of general interest to the ward.

The school board decided to ask permission to issue $300,000 worth of bonds, the money to be used for a new school building. The date of the special election was fixed for August 22. So much opposition to increasing the indebtedness developed in the ward the school directors decided to abandon the scheme.

About 200 citizens of the ward gathered in the Morgan street school house last night to discuss the bond question. Oscar Adams, secretary of the school board, sent a letter announcing the board would not press the question of increasing the indebtedness. Dissatisfaction was expressed because the president of the board had not added his signature to the letter. There was also doubt as to whether the board had abandoned the bond issue finally or intended to submit the question to the voters at the November election.

In view of the uncertainty of what the board proposes to do, it was considered wise to organize to meet any emergency.

The Thirteenth Ward Taxpayers and Voters' association, a non-political organization, was formally launched. Frank P. Howley was elected chairman and Frank E. Treese secretary. A vigilance committee of 42 was named. This body will be increased to 140, allowing 10 men from each of the 14 election districts.

TWENTY-FIRST WARD MEN WILL FIGHT FOR RIGHTS

Launch Lemington District Improvement Association and It Will Probably Get Into Politics.

Twenty-first ward citizens, dissatisfied with their street car facilities and with their fire protection, have organized the Lemington District Improvement association. The membership is drawn from residents of the ward living north and east of the Beechwood boulevard.

Over 300 men last night crowded into the basement of the Lemington school house. They wanted to meet in the auditorium, but the janitor had received a written order yesterday from one of the directors forbidding the use of the auditorium for any political purpose. As this association may get into politics next February the order covered it and the meeting was held in the cellar.

J. Irwin Green presided. There was a unanimity of feeling as to the necessity for an organization, but a diversity of opinion as to what shape it should take. Finally it was decided to form an improvement association on lines broad enough to cover anything tending to the welfare of the district. Charles Ross was elected president, Harry Double vice president, Frank R. Forrest secretary and Dr. J. C. Anderson treasurer. The chair was authorized to appoint a committee of 10 to prepare a constitution and bylaws and the meeting adjourned for two weeks.

LITTLE GIRL ACCUSES MAN OF SERIOUS OFFENSE

John F. Keener, Elderly Resident of Allegheny, Is Placed Under Arrest, and Bail Is Refused.

Detectives Aiken and Einstein of Allegheny, last night arrested John F. Keener, married, aged 59, near his home in High street, and locked him up in Central station. The arrest followed a confession made to Acting Superintendent John Glenn by little Martha Wunderling, aged 11, who lives with her father, Frank Wunderling, in Home street, Spring Hill, Allegheny.

The girl was brought to city hall by her elder sister and her father. After Glenn heard the story he ordered the detectives to hunt up Keener. The man was found at a merry-go-round near his home and offered no resistance when Aiken placed him under arrest. Glenn refused to take any bail and declares that if the girl's father does not make information this morning against the man, he will.

Keener is a jewelry salesman, and the police say his record is bad. His photograph is in the rogues' gallery at Allegheny city hall. The photograph was produced last night and the little girl identified it. She refused, however, to go down to the cell, evidently fearing to meet the man. Supt. Glenn says Keener was sent to the Western penitentiary several years ago for stealing in Kilbuck township.

MEETING OF COLORED KNIGHTS

Negro Pythian Order Gathers in McKeesport Today for Convention.

About 200 members of the colored Knights of Pythias will meet in McKeesport today to begin the annual convention of the order. The visitors are to be entertained by Queen of the West lodge, of McKeesport, in Liederkranz hall, where the convention proceedings will be held. Business sessions will be held tomorrow and Thursday morning, afternoon and evening.

Tomorrow evening there will be a prize drill for the members of the uniform rank, and on Thursday evening a banquet and reception is to be given the visitors. It is expected that about 600 persons will participate in the drill, and that about 2,000 visitors will be entertained during the convention.

MAN DYING; WIFE HELD.

Mrs. John Kuhn Says She Pushed Her Husband Over in Self-Defense.

Skull Fractured.

WHEELING, W. VA., Aug. 7.—(Special.)—John Kuhn is dying at the city hospital and his wife, Lizzie Kuhn, and Carrie Cousins are under arrest and will be charged with his murder if he does not recover. There is a man in the case, who has not yet been arrested.

Kuhn and his wife have not been living together for three years, but met Sunday night at the home of the wife's sister. Later they met at the home of Mrs. Cousins, where Kuhn received his injuries. The women allege that the skull was fractured in a fall when he was pushed by Mrs. Kuhn in self-defense.

FREES PRISONER BECAUSE MILL IS SHORT-HANDED

Because he did not want to cripple one of the blast furnaces in the National Tube works at McKeesport yesterday Alderman P. S. Langsdorf of that city permitted a prisoner to return to his work, after he had been sued on two charges of assault and battery preferred by Andrew Sebe. The prisoner was Joseph Petorie, a laborer at the furnace. The latter's boss pleaded that the mill was already short of men and that it would be crippled if Petorie was held.

Preparing for the Pythians.

The Pittsburgh Knights of Pythias grand lodge meets in McKeesport next week. William H. Coleman, prominent among McKeesport Pythians, will extend fraternal greetings. Mayor Falkenstein will deliver the address of welcome on behalf of the city. Loads of paraphernalia to be used in street demonstrations and in providing quarters for the Uniformed Rank in Olympia park have already arrived.

Morris Cohen Is Rearrested.

Morris Cohen, alias Jacob Levi, was arrested last night as a suspicious person. He is the same Cohen who was arrested on last Friday, with Harry Levi and Samuel Brown of Baltimore, he being fined $25 and costs and ordered to leave town; Brown being sent to the workhouse and Harry Levi held for the juvenile court, on the charge of trying to pick a woman's pocket.

NEW APPENDICITIS CAUSE; RUBBER RINGS ON BOTTLES

Liverpool Physician Says Presence of Antimony in the Elastic Causes Disturbance of the Nutritive and Digestive Systems.

[By Private Wire to The Gazette.]

WASHINGTON, Aug. 7.—Another theory has been advanced regarding the cause of appendicitis. Dr. Pond of Liverpool publishes in the London Lancet a new theory with reference to the origin of appendicitis and other disturbances of the digestive organs. He calls attention to the fact that such ailments often can be attributed to antimonial poisoning, and the source of the antimony taken by men is said to be the rubber rings frequently used to close all sorts of bottles.

Dr. Pond has established the fact that such rings consist of almost one-third their weight in antimony. Not only is the antimony dissolved by the mineral waters containing the alkalis and organic acids, but these rubber rings, as daily observation shows, soon become brittle and some of the compound falls into the contents of the bottles.

Dr. Pond claims to have found that a frequently repeated introduction of antimony can become the source of a series of distrubances of the nutritive and digestive system, especially through continued weakening of the muscles of the stomach and intestines. Scientists have taken up the matter of antimony in rubber rings and if Dr. Pond's conclusions in that regard are proved his deductions concerning the effect of antimony on the digestive system may be supported by the report of the other investigators.

WORK STARTS ON NEW BUTLER TROLLEY LINE

Plans on Foot to Have Mayors of Pittsburgh and Butler Hold New Year's Jubilee.

Work was commenced yesterday at Valencia on the new Pittsburgh and Butler trolley line being constructed by the Ferguson Contracting Company for a company composed largely of officers and stockholders of the Pittsburgh Trust Company. George Stewart, a contractor of Mars, who has the sub-contract for a portion of the work, commenced the moving of 10 dwelling houses at Valencia which stand on the trolley line's right-of-way. The implements for the work have been placed on the ground and Contractor Stewart has received orders to proceed with the undertaking with all possible dispatch.

The town of Butler is jubilant over the prospect of a trolley line to this city, and a story from there says that the contractors have been urged to have the road completed for the operation of through cars on January 1. The Butlerites have planned for a big New Year's day excursion and expect to bring the mayors of Pittsburgh and Butler together on trolley cars which will leave each terminus of the line and make a race for the half-way point. Then they hope to proceed to Butler and hold a big jubilee.

The contractors are optimistic and do not want the people to be disappointed. The grades on the line are not heavy and aside from two bridges which are to be built, the work can be quickly done. For a considerable distance the trolley line parallels the Baltimore & Ohio railroad, and the grading on this stretch of the road can be finished in a few months.

MAYOR HAYS IS GIVEN WORK IN MIDSUMMER

He Must Sign His Name 1,000 Times to Additional Filtration Bonds.

Mayor Hays was notified yesterday that he would have to sign his name 1,000 times. Assistant Controller Morrow told him that the sinking fund commission required every one of the coupon filtration bonds, recently sold by the city to the sinking fund commission to be signed by the mayor.

The sinking fund commission bought $1,370,000 worth of the $2,000,000 issue. The $630,000 worth of the bonds sold to the Union Trust Company were signed by the mayor, but it was thought he would escape putting his name to the bonds purchased by the sinking fund commission.

In midsummer, when the mayor is endeavoring to have a nice, restful time, as almost the sole occupant of city hall, he is compelled to take up his pen and perform this laborious task.

GETS LETTER FROM TOGO.

Admiring Forbes Street Cigar Dealer Sends Stogies to Admiral, and Receives Gracious Acknowledgment.

E. S. Edwards, a cigar dealer at 3801 Forbes street, is an ardent admirer of Admiral Togo. He read so many accounts of the little yellow fighter's brilliant exploits that he was finally constrained to send him a token of his respect. Accordingly a box of Pittsburgh stogies were shipped across the seas to the Japanese admiral, and yesterday Edwards received his reward in the following letter:

H. I. J. M. S.,
Mikasa.
July 11, 1905.

Sir:

I am directed by his excellency, Admiral Togo, to acknowledge the receipt of cigars you kindly sent him, and convey to you that his excellency is much pleased in accepting your kind present. I have the honor to be your obedient servant,

J. KIY OK AWA,
Flag Lieut. to His Excellency,
ADMIRAL TOGO.

E. S. Edwards, Esq.

Mr. Edwards had the letter framed, and it now occupies a place in his show window.

Elect Consolidated Gas Board.

At the formal annual meeting of the Consolidated Gas Company stockholders yesterday the following directors were chosen: J. H. Reed, James D. Callery, Joseph F. Guffey, C. S. Mitchell, Robert Young and C. J. Braun, Jr. The directors all represent the Philadelphia Company, which owns the Consolidated.

The Rev. Thomas B. Thomas Dying.

The condition of the Rev. Dr. Thomas B. Thomas of 3 Oakland square, Oakland, pastor of the Oakland Welsh Presbyterian church, was unchanged at a late hour last night. He is kept under the influence of opiates, and the attending physician, Dr. L. E. Davis, states there is no hope for his recovery.

Says Mass for Baseball Victim.

A requiem high mass was said at 9 o'clock yesterday morning over the remains of William J. Maher, aged 49, who died after witnessing the ball game in Allegheny Thursday afternoon. The services were conducted by the Rev. Father A. A. Lambing of St. James' Roman Catholic church, Wilkinsburg.

Excursion Boat Lost, Passengers Saved.

INDIANAPOLIS, IND., Aug. 7.—The excursion steamboat Sunshine sank this afternoon at Broad Ripple park, 10 miles from the city, with 180 passengers on board, all of whom were men except one, a woman, who was rescued by a launch. No person was drowned, but several were injured in the panic.

Wagon Is Hit by Car.

A team of horses and a wagon owned by J. B. Haines were struck by a Knoxville car at Seventh avenue and Smithfield street yesterday morning. The driver, Harry Rawley, 54 Marion street, was badly bruised about the body. One of the horses had a leg broken and the other was badly cut.

$400 Fire in Kirkpatrick Street.

Fire in the residence of A. Weisman of 619 Kirkpatrick street at 1 o'clock this morning damaged the property to the extent of about $400. A still alarm was sent in to No. 5 engine house. The fire started in the cellar from an unknown cause.

Pittsburghers in Paris.

PARIS, Aug. 7.—(Special.)—Among the list of Americans registerday at the Paris office of the New York Herald today are Emile and Mrs. Mayerns, Dr. T. C. Fulton and Miss Madeleine Fulton and J. H. Cohn of Pittsburgh, Pa.

The Working Peoples Bank.

Savings banks are to a great extent the banks of the wage earners. The Pittsburgh Bank for Savings, Smithfield St. and Fourth Ave., desires the savings accounts of the mechanic, clerk, laborer, stenographer, married and single women, business and professional men, young people and children. Dollar deposits acceptable. Four per cent interest paid.

PLUCKY WOMAN SENDS BULLETS AFTER BURGLAR

Is Awakened by His Prowling in Her Room—Water Bottle Foils Thieves.

Numerous burglaries in Pittsburgh and vicinity during the past week have had a tendency to put the various police forces on their mettle. Mrs. E. R. Munroe of E street, Oakmont, had an exciting experience. Hearing a burglar in her room she was afraid to get up for fear of encountering him. The burglar ransacked bureau drawers and then went close to her bedside, flashing a lantern in her face. The woman lay quiet until he left the room when she secured a revolver and followed out into the hall. Catching sight of the robber at the foot of the stairs she sent two bullets after him. The robber unlocked the kitchen door and escaped. Some articles were found lying on the lawn outside. Ten dollars in money was missed.

Occupants of apartments at 724 Cedar avenue, Allegheny, as a means of protection against thieves, placed a lot of water bottles at the foot of the rear stairs leading off Monitor street. It was their hope that a burglar going down the steps would tumble over the bottles and alarm the household. This is what happened. When the bottles fell with a crash shortly after 2 o'clock yesterday morning lights flashed all over the apartment. The outside burglar put his head down the cellarway and called: "Are you hurt, Bill?" "Bill" didn't answer and his pal fled. Guards were placed at the rear and front and an officer sent for. The burglar suddenly appeared out of the darkness, rushed past the guards and escaped by the front door.

Homestead police yesterday morning arrested, after an exciting chase, three men who gave the names of John Dudash, Andy Sisko and Joe Lepka, all Hungarians. They were trying to force open a window of a residence in Eighth avenue. During the pursuit several shots were fired.

Edward G. Whitehead, a Bellevue photographer, discovered two men in his home early Saturday morning. He fired at them but does not know if the shot took effect. He was awakened by the men prowling about the house.

AFTER NAVAL RECRUITS.

Lieut. Cole Takes Up Quarters in Federal Building—"Pirate," the Bulldog, Is Party's Mascot.

Lieut. C. W. Cole, U. S. A., detailed on special recruiting service, arrived in Pittsburgh yesterday in command of a recruiting squad and securing quarters in the Federal building promptly began the examination of applicants for admission into the navy. Mr. Cole is making special efforts to secure machinists, carpenters, blacksmiths and other mechanics. The party consists of Mr. Cole, Surgeon G. F. Duncan, D. M. Carroll, chief master-at-arms; A. Frankle, chief machinist; D. E. Hamburger, chief hospital steward; W. H. Youngblood, yeoman of the first class, and O. Funk, hospital apprentice.

"Pirate," a bulldog, is the mascot of the recruiting party. He was once owned by a student at the Syracuse (N. Y.) university, and acquired such a record that he was ordered out of the university by the chancellor, and the mayor of the city gave orders that any policeman should shoot him on sight. "Pirate" is gentle with human beings, but all animals above the size of a cat are hated by him. During his stay in Syracuse his chops were stained with the blood of two pigs and a cow, which he killed.

ENCOUNTER BIG TARANTULA IN BUNCH OF BANANAS

Albert Fraas, a grocer of Market street, McKeesport, yesterday had a narrow escape from being bitten by a tarantula which was clinging to a large bunch of bananas. As Fraas went to cut some bananas from the bunch his hand almost touched the spider, but before it could sting him he drew back out of harm's way. The tarantula was shaken from the stem and killed.

NO GUNS MUST BE USED TO SALUTE THE PRESIDENT

WILKESBARRE, PA., Aug. 7.—(Special.)—Owing to an explicit order in the list of instructions for the safety of President Roosevelt upon the occasion of his visit to the miners and temperance workers here on Thursday, a salute of 21 guns in his honor, which had been arranged, will not be fired. The order is that no firearms of any description shall be fired within one mile of any point where the president is to be.

TRACTION DEAL RUMORS THICKEN

Belief That Pennsylvania Is After Pittsburgh Railways Company Strongly Held.

SUBURBAN LINES INTERESTED

Interest in the sudden awakening in many directions to Pittsburgh's need of greater traction facilities continues unabated. Likewise the demand for the issues of the Philadelphia Company remains strong, the buying in Pittsburgh and Philadelphia having all the appearance of certainty on the part of the purchasers as to the plans to be followed.

The Pennsylvania railroad as the purchaser is still the strong favorite among the dealers in stocks, although it is admitted that the identity of the purchaser has been well hidden. It is said the big railroad interest is at the same time securing effective control of the traction properties of Philadelphia, and in connection with the Pittsburgh end of the deal it is stated that investigations are on regarding certain suburban lines not controlled by the Pittsburgh Railways Company.

That the facilities in the city are likely to be much increased seems to be undoubted. The bona-fide character of the plans of William Flinn and his associates in the tunnel projects is not doubted, the biggest financiers having the tip that these plans are to be made good by construction with all possible speed. Engineer A. D. Neeld is in charge of the work for Mr. Flinn. That the Duquesne and Oakland tunnel will not be the only ones seems assured from a statement made by George H. Flinn, who at the same time refuses to indicate where the other routes will be laid out.

The fight for franchises in West Liberty borough between three interests is one outside incident in the fight. The West Liberty project will reappear on August 16 when the proposition to lease the Castle Shannon railroad to the interests connected with the Bon Air Land Company comes up. It is the plan of these gentlemen to turn the Castle Shannon into an electric line.

GUESTS IN A PANIC.

Sewickley Hotel Fire Causes Big Scare but Little Damage.

A guest in the Hotel Russell, Sewickley, was awakened by the crackling of flames at 4 o'clock yesterday morning and found the rear of the building blazing. Cries of "fire" resounding through the corridors put the guests in a panic. Two men jumped from second-story windows and the rest of the 45 inmates fled to the street. When it was discovered the fire was in the rear the guests returned for their goods, all of which were piled up on Beaver street. The Sewickley volunteer fire department put out the fire after a couple of hours' work. The loss is estimated at $3,000.

Fire at the home of Peter Fullard, 324 Second avenue, Homestead, yesterday morning did $1,500 damage. The house is a 10-room frame, and the flames were discovered on the second floor, cutting off a rear room in which Mrs. Fullard was sleeping. She was taken out of a window and down a ladder.

550 White Tub Skirts for About Half.

Let's see, you have all of August and the greater part of September in which to wear Summer skirts, for be it known that women part with their tub skirts and dresses more regretfully each season, and with their tub waists not at all. Then as these skirts are in the latest style they can be worn with all propriety next season.

They are divided into three lots in this wise—

$2.50 Skirts will be sold for $1.00.
$5.00 Skirts will be sold for $3.50.
$10.00 Skirts will be sold for $5.00.

Women's White Waists for Very Low Figures.

In some cases the prices are half and less. In others the reduction doesn't figure so much, as the waists were marked very close to cost originally.

The materials are white lawns, Paris muslins and other stylish wash fabrics—designs the newest.

$2.50 Waists today $1.00.
$3.50 Waists today $1.85.
$4.00 Waists today $2.50.
$5.00 Waists today $3.00.

Fads and Fancies in Women's Belts.

You have only to decide what sort you like best, and if you find it hard to decide on account of the multiplicity of styles, let us help you out. We have every sort that Fashion approves.

A special lot of New Patent Leather Conformity Belts, soft and flexible, positively will not crack, all sizes, for each, 75c. The same style of belt in white kid at 50c each.

Another "Word Hunt" Next Sunday.

$50.00 IN PRIZES

For Four Words Selected From

NEXT SUNDAY'S GAZETTE

Rules and Conditions of the "Word Hunt."

The hunt consists of selecting four words from the advertisements appearing in next Sunday's issue of The Pittsburgh Gazette.

In selecting such words you are privileged to use each letter of the alphabet four times, but no more.

Each letter of the alphabet has a value in points, according to its location in the alphabet. For example, A is one point; B, two points, C, three points, etc. This would make the letter Z count twenty-six points.

The persons selecting the four words aggregating the greatest number of points (on the basis described above) will receive the prizes. We give below examples to demonstrate the difference in value of words. Take the word "Furniture."

6—21—18—14—9—20—21—18—5
F—U—R—N—I—T—U—R—E

It contains nine letters and represents 133 points, whereas, you take the word "Handkerchief."

8—1—14—4—11—5—18—2—5—9—5—6
H—A—N—D—K—E—R—C—H—I—E—F

It contains twelve letters, which only represent 92 points.

Answers must give the words selected, explain from what ad. they were taken and where the ad. is located in the paper. This is necessary to properly check the answers.

LIST OF CASH PRIZES

First Prize	$15.00
Second "	10.00
Two Prizes $5.00 each	10.00
Four Prizes $2.50 each	10.00
Five Prizes $1.00 each	5.00
13 Prizes	$50.00

After each word must be given the number of points it represents; at the bottom of the sheet the total of the points represented in the four words. Sign your name and address plainly.

Should two or more contestants be tied for certain prizes, such prizes will be distributed pro rata among such contestants.

Every person is eligible to enter the Hunt except employes of The Pittsburgh Gazette and members of their families.

All answers must be sent in on the blank form provided in The Sunday Gazette.

No contestant will be awarded more than one prize.

All answers must be in The Gazette office by 9:00 a. m. of the following Thursday.

Answers must be addressed to Manager "Word Hunt," The Gazette, Pittsburgh, Pa., and either sent by mail or delivered in person at our Business Office.

Any answer which does not comply strictly to the foregoing rules will not be considered.

Any points not covered in the above rules will be decided in an equitable manner by the Sunday Editor of The Gazette and the Manager of this contest.

(Copyrighted, 1905, by J. F. Bailey, Pittsburgh, Pa.)

NOTICE—The Manager of the Hunt reserves the right to make any changes in the rules that he may deem necessary for properly conducting the contest. Be sure to read the rules next Sunday.

No Person Knows the Answer. It's Up to You. Enter the Contest---You Have All to Gain and Nothing to Lose.

July 24, 1905.

Notice is hereby given that the following ordinance was presented at a meeting of select council of the city of Allegheny, on the twenty-second day of July, 1905, and was referred to committee on public works.

LAFAYETTE WILLS,
City Clerk.

AN ORDINANCE—Authorizing and ordering the grading, paving and curbing of and laying sidewalks on Harrison avenue, Second and Tenth wards, from Ridgewood avenue to Clifton avenue, and providing for assessment and collection of the cost and expense thereof.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the grading, paving and curbing of, and the laying of sidewalks on, Harrison avenue, Second and Tenth wards, from Edgewood avenue to Clifton avenue, is hereby authorized and ordered, and the director of the department of public works is hereby instructed to prepare specifications therefor, and the mayor and the said director are authorized to advertise for proposals for doing said work in accordance with such specifications, and award the contract therefor, according to the provisions of the acts of assembly in such cases made and provided.

The cost and expense of said improvement to be assessed and collected in accordance with the provisions of the laws of the commonwealth of Pennsylvania pertaining thereto and regulating the same.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Bulletins from New Orleans are distinctly favorable. They do not show as great a decrease in deaths and new cases as might be wished, but they do show a marked decrease in new foci of infection. When these cease to appear the situation will be well in hand. Once all infected persons come under observation there will be no further spread of the disease.

It is with some gratification the public notes that householders are taking some measure to protect themselves against raids of burglars. Yesterday morning an Oakmont woman and an Allegheny man each had a shot or two at disturbers of their domiciles. Unfortunately there were no fatalities. The burglar is a murderer by intent and deserving of the death he risks in his nefarious calling.

Another question of precedence has been decided, this time by the state department in favor of Russia. A country represented at Washington by an ambassador outranks one represented by a mere minister. This is very important in the world of diplomacy, but the sovereign people of this country decline to get excited over the matter. It is nothing to them. What they want to know is whether the final verdict is to be for peace or war.

In the absence of heads of departments Mayor Hays promises to have some things attended to. One of these is the equipment of street cars with fenders. The mayor says there will be more tests in the very near future and seems to incline toward agreement with the superintendent of police in the dictum that there are good fenders. There are good fenders in use in New York, Cleveland, Kansas City, Washington and elsewhere, and if the mayor gets one of these adopted before Director Moore comes home he will have done a good thing.

In these appendicitis days, the reported discovery of Dr. Pond will arouse considerable interest. The good doctor attributes appendicitis and other disorders of the digestive tract to antimony poisoning, the mineral being derived from rubber rings, or bottle stoppers. It does not appear that any one has cared to investigate the food and drink habits of any appendicitis victims to determine the extent to which they were addicted to the rubber bottle stopper habit, but that is a mere detail. If the public will kindly cut out the rubber sealers the doctors can note the decrease in appendicitis cases.

Purchase of the Perrysville road at the price of $50,000 has been agreed on and the county will have no more toll roads. It is just possible some of these highways have cost the county more by purchase than they would have cost for construction. That, however, does not measure the reasonableness of the price. The franchise having become private property is worth what it will earn. That principle was definitely fixed in the case of the Monongahela Navigation company when the United States was compelled to pay more than the improvement cost the company, but not more than it was worth for the use of the public.

Venezuela's federal court has decided the famous asphalt case adversely to the Bermudez Asphalt Company and the Hamilton concession. To this decision is added the Venezuela dictum that there is no appeal from this court. It is not probable the American government will be in haste to take action on this matter. Special Commissioner Calhoun will include the case in the investigation he is making. Much will depend on his report. There is reason to believe in advance that Venezuela is not dealing out justice. If this can be clearly proven the United States will have something to say. It is not hunting trouble and it has no desire to impose on any of its South American neighbors. But if it is compelled to demand satisfaction of Venezuela, the tricky Castro will speedily discover there is no Monroe doctrine to shield him. If warlike action is taken it will be vigorous and decisive.

Republican Party All Right.

There is such a vast difference between the Philadelphia views of the political squabble in that city and the cross-eyed view of our Democratic contemporaries in Pittsburgh that we cannot help noting the discrepancy. According to the Pittsburgh view the eruption in Philadelphia has condemned the Republican party there and throughout the state. The Philadelphia Record, leading Democratic newspaper in the state, rabid supporter of Mayor Weaver and antagonist of Republican policies, discusses the Philadelphia situation in these words: "The civic revolution has replaced the machine not by a nonpartisan government, but by a government of Republicans, which is an essentially different thing. Mayor Weaver and the heads of departments and their assistants are all Republicans and Protectionists of the strictest school. But they are honest and public-spirited men courageously enforcing the laws for the welfare of the whole community, and that is the sole consideration."

This is so different from the dictum of the Pittsburgh organs that one might think it referred to a different case were it not for the particular mention of names and incidents. The Record is highly partisan in the Philadelphia mix-up and cannot be accused of excess friendship to anything under the name Republican. Nevertheless its conscience does not permit it to claim for the Democracy the credit for what it terms the "civic revolution." What has been accomplished, it says, has been done "by a government of Republicans."

What has been done in Philadelphia may be more accurately measured in the final results. It will appear in the conclusion, when all of the evidence is in, whether the eruption has been wholly for the public good, and, if not, what proportion has been engineered for selfish factional advantage. Until that time it is chiefly a matter for Philadelphians to consider and to quarrel over if nothing less can content them. To the state at large it is of general interest only, and the state at large can afford to suspend judgment until the evidence has been sifted.

In any event the Philadelphia broil has no bearing on the state campaign. There is no connection between the two. The Republican party of Pennsylvania has nominated a ticket for the suffrage of the people on a platform of sound principles. That ticket will be supported by every voter who desires to indorse Republican policies and elect Republican candidates. The ticket is a good one, containing the names of men worthy of public confidence and party support, from first to last. No Democratic support is asked for any part of that ticket and no Democratic support will be accepted as a tender for Republican support of any Democratic candidate.

Pertinent Queries.

There are some things in the testimony of the Taggart divorce case that are of public interest. They are the statements of army officers and others concerning the general social life of garrisons. To these is added a statement by Mrs. Taggart that she will never consent to have her boys enter the military service "because there is so much drinking there." The trend of the information recalls Gen. Corbin's some time declaration that soldiers and subalterns should not be permitted to marry.

Considerable ribaldry was indulged at Gen. Corbin's expense. In an abstract consideration of the question this was fully justified. Considered in the light of the testimony referred to concerning the social standards of the barracks, Gen. Corbin was not far wrong. Of course, the idea suggests itself that reform of garrison life would be more to the point than the prohibition of marriage in the army. Etiquette that requires free drinking on the part of both sexes is, as Shakespeare would say, "more honored in the breach than in the observance." The grading of social rank and popularity by comparison of the individual capacity to absorb intoxicating beverages is several shades worse than ranking the "smart set" according to the figures for which the checks of the members might be honored at the bank.

During the Boer war the British people made the discovery that certain customs had caused shameful deterioration of the British army. The complaints were both loud and deep. More recently Gen. Lord Roberts made a statement in parliament affecting the unpreparedness of the British army. He did not go into the details so generally complained of during the South African war, but obviously had them in mind. It is a fair question to ask how nearly American army vices are approaching the English standard. True, America does not depend in war upon its regular army establishment, yet it is of vital importance that highest standards should be maintained there. Are they?

Russia's Unrest.

Obviously the disaffected elements in Russia have not been reconciled by the imperial grant of a national assembly, elected by limited suffrage and to have very limited powers. The great meeting in the senate square in Helsingfors yesterday voiced demands not covered by the concession of an assembly. The assassination of 30 policemen in Warsaw does not indicate popular pleasure in the prospect.

If it be true that M. Witte has authorized a message to St. Petersburg forecasting failure of the peace conference it will be interesting to note the effect its publication will have on the Russian people. They are clamoring for peace. The revolutionaries have taken advantage of the absence of a part of the army to foment disorder and protest against the existing order of things. It may be expected a prediction of indefinite continuance of the war will not tend to mollify any of the dissatisfied elements, nor is it likely to produce that united sentiment so confidently asserted by the distinguished envoy.

A prompt conclusion of peace may save the Russian autocracy any further concession than a limited assembly. Liberation of the army in Manchuria for service at home and gratification that no more reservists are to be sacrificed will be powerful factors in restoring order. Then if the assembly is allowed to gradually grow into something useful to the people the empire may prosper. It is idle to expect, however, that conditions existing before the war with Japan can be restored and maintained for any considerable period of time. Those conditions will inevitably produce another and more severe revolutionary agitation.

An Absurd Falsity.

County Commissioner Charles B. Price takes the trouble to deny the silly story that he had refused to be a candidate of the Republican party unless given an indorsement by the Citizens. Of course he never said anything of the kind. The story was manufactured by a paper that never tells the truth about anything political, except by mistake. Mr. Price needs no other nomination than that of the Republican party to assure his election, and while not a politician, he knows the Republicans could never ask the Democratic-Citizens party to indorse one of its candidates.

This story deserves attention only as an example of the political yarn spinning that is being done just now. No lie is too flimsy or absurd to be given circulation by the disappointed organ, provided it reflects against the Republican organization or an individual member of the party. Mr. Price will hardly be opposed for nomination on the Republican ticket, because his fitness for the office to which he has been appointed is generally recognized. He is quite certain to be nominated at the primaries next month and he will accept the nomination when tendered.

A Convert to Rationalism.

With the founder of Asbury Park favoring high license instead of an environment of "speakeasies" and the propinquity of the sale of liquors at either end of his alleged exclusive resort, the radical Prohibitionists of the country have a practical lesson before them. Mr. Bradley, the man who conceived Asbury Park as a haven for those guiltless of taking a drink before, after or any time subsequent to partaking of the morning meal, commonly called breakfast, is now convinced that it is better to regulate than prohibit. At the same time he does not abate one jot or little of his abstemious proclivities. The only deduction to be made is that he has come into the lines of reason and possibility.

The actual inhibition of the sale of all kinds of liquors has, by experience, been found to make criminals out of honest men, perjurers out of truthful citizens; that is, in a prohibitive community. This much the censor of Asbury Park admits when he says:

I am as much a Prohibitionist at heart as I ever was, and the right of the state of New Jersey to prohibit the damnable traffic is perfectly sound, I believe. But I also believe that where experience has shown that a law is impracticable and cannot be enforced, and too often makes hypocrites of our most reputable hotelkeepers—often many of Asbury Park's best guests are church members from the cities, who, at their own homes, have wines and liquors on their tables, and demand it at the Asbury Park hotels, and intimate to the landlord that if they cannot be served with liquor they will patronize hotels elsewhere—then the temptation of the landlord, who has his all invested in his business, is almost beyond human resistance, and for these reasons I think that high license would be more advantageous for Asbury Park.

This is the rational view of the great moral question that confronts the country. There are some Prohibitionists who will not temporize, and their radicalism loses what they are fighting for, but the example of Brother Bradley of Asbury Park, once an extremist but now a rationalist, should cause them to pause and consider; to get what they can within reason without asking for the instant dawning of the millennium.

One week before the meeting of the recalled Democratic state convention it is an open secret it will nominate John Stewart for supreme court justice. It is equally well known it will not make any indorsement of former Judge Gordon.

Though Italy and Japan have declared against their subjects working on the Panama canal they have put up no bars to prevent them from emigrating to America.

It is reported M. Witte authorized a Russian press dispatch stating his country should prepare to continue the war. Not a very deep ruse.

Gen. Linevitch has just counted the Japanese troops, and finds just 430,000 on his own front, not to mention the swarm in Korea.

A death from yellow fever in the New York detention camp does not call for quarantine of Pittsburgh, or a general alarm.

Kittery can now resume its warfare against Portsmouth, if it is not rendered speechless by the appearance of the envoys.

If citizens must protect themselves against burglars a school of marksmanship may become popular.

Holland has a new cabinet. Here is a crisis that has shaken nothing away from The Hague.

M. Witte's desire to see Bunker Hill is quite natural. The British were in trouble there.

There will be some more fender tests, we are told, regardless of Director Moore.

Aside from the killing of 30 policemen yesterday, Warsaw is unusually quiet.

QUIET OBSERVATIONS

By ERASMUS WILSON.

"When is a door not a door?"

"Please riddle me this, and I ask you no more."

Then he goes on to say that a young lady, presumably his best girl laid this conundrum on him and then jilted at him because he could not riddle it out. He says that the blamed thing has bored into his brain like a sap-worm into an oak log, and he can't get rid of it.

That's tough, don't you think? You may have had 'em yourself, more or less.

There were those famous jingles by Mark Twain. "Punch brothers punch, punch with care; punch in the presence of the passenjair," that worm-like bored into many brains, and are boring yet in some, if they haven't died recently.

It is said to be a fact that those jingles sent about as many to Lunaberg as did "pigs in the clover," or the "thirteen puzzle."

You may say these hadn't far to go, but they went, all the same, and some of them spent the balance of their days there, or are spending them there now.

The strange thing about it is that those who get jingles in their heads are usually those who are supposed to have wit, and the wittier the more apt they are to get them, and to get them bad.

This, however, seems to be in accordance with the eternal fitness of things. At least they do say that fools never become insane—possibly because they don't have to.

It is not a matter for great wonder that a poet at somewhere or from somewhere should get all tangled up with this string, short as it is. And after saying his say he ventures to say what other poets would have said, taking care to place the words in the mouths of dead ones, or those so far away that they can't get at him.

His name is Frank P. Adams, and he avers that if Bret Hart were living he might have written thus:

"Which the same I don't know,
And you're gettin' me sore.
This is no minstrel show,
If you value your gore.
Dry up on them tarnation questions, like
'When is a door not a door?' "

And then he opines what Kipling might, could or would say, in which he is perfectly safe since Rudyard has sworn off taking any notice of critics or wits.

"I've thought over things as was daffy;
I've thought about some as was worse;
I've written 'em up—a few in prose and
some of 'em might be verse—
But by the idols of Burmah! there's never
a man to say
When a bloomin' door it ain't a door—or
is it the other way?"

* * *

And there are others—other fool questions and riddles—such as "Why does a hen cross the road?"

Do you know? If not ask the first man, woman or child you meet, for you ought to know.

How foolish? Not a bit foolish, at least not for those who have a taste for this sort of thing, and whose minds are balanced for weighing matters of such delicacy.

You may not care for this sort of nonsense, but for some other sort, for it hath been said that every sane person has a weakness for nonsense of some sort, or has a fad, or a hobby to ride when they get tired plodding along their daily walks.

If, perchance, you know when a door is not a door, and why a hen crosses the road, maybe we can spring something you don't know.

Is the earth round, or is it flat?

You may think that question was finally settled long since.

Not so, for there have ever been those, and such are even now, who contend that it is flat, and that the sun, moon and stars course around it.

Nor can you say these were fools, nor that those who still defend and contend for the flat theory are persons of no consequence.

Following is a notice recently cabled from London that will set the tongue of science to wagging. And it is no joke, for Lady Blount is a real English lady, well schooled and accomplished and handsome, withal, to say nothing of being wealthy and a stylish dresser.

Lady Blount, wife of Sir Walter Blount, Bart. and chief champion of the "flat earth" theory, is preparing for a visit to the United States. Accompanied by her private secretary, Dr. C. De Lacy Evans, Ph.D., M.R.C.S., Lady Blount leaves England early in August, hoping before her return to convince large numbers of Americans that the familiar doctrine of Columbus in regard to the earth's shape is an absurd fallacy. New York will be the first place visited, and from there her ladyship will go as far west as Chicago, stopping at most of the principal intermediate cities to deliver lectures and distribute literature.

"Lady Blount's principal fad for a number of years has been this belief that we are living on a vast floating surface with a secure anchorage. Entrenched behind some clever arguments she has carried on relentless war against the orthodox teachings of science, from platform and in her writings, declaring that nothing is farther from the truth than astronomy as it is now taught. At considerable expense she has made interesting tests to disprove the 'globular' idea, and is perfectly willing to undertake the American campaign without any guarantee of outside financial help.

"Lady Blount's doctrine has been accepted by many people in England and the United States. These believers she has organized into 'The Universal Zetetic society,' and for some time Lady Blount has been that society's president. Dr. De Lacy Evans, the private secretary before mentioned, is the organization's vice president.

"Besides being a scientist, Lady Blount is an accomplished musician as well as a verse writer of some skill. Some of her verses are set to music of her own composition."

Mr. Quiet Observer—Anent the discussion on swearing I should like to inquire of the teacher how she can conceive crimes against humanity that are not crimes against God, or crimes against God that are not crimes against humanity.

I am sorry that the leaven of liberal, rational religion has not found its way to the mind of every teacher and convinced that mind of the very essential unity of man and God.

If I should ask the teacher wherein lay the sin in swearing I fear she would say that it was divinely forbidden in the scriptures.

The real sin is in the passion represented by the swearing, and it speaks well for certain Hebrew writers several thousand years ago, that they pronounced against it. But what a reproach to our theologians, teachers and parents that they give another reason for abstaining from it that there was a supernatural mandate to that effect many years ago.

I suppose the teacher stands on the orthodox dogmas that our fathers and mothers taught us, that is, the theory of the universe as unfolded in the first chapters of Genesis. To my mind it is a greater crime to teach that those tales are authentic history of the actual creation, than to swear from now till doomsday, with the passions of temper, spite, revenge, etc. Half of our so-called swearing is of this sort, lacking the essential, the verity which was originally called swearing, and it is almost harmless.

TALKED OF IN GOTHAM

By FRANK A. PARKER.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 7.—Pupils in the New York schools are likely soon to have a farm all their own for the study of nature. Miss Letta B. Burns, supervisor of this branch of study in the schools, has been working on the plan for a long time, but just now it seems more promising than ever before. The school board has taken it up and the matter has been laid before the park commission, and the need of such a farm is recognized by all those who have investigated. It is proposed to set apart about 1000 acres in one of the large city parks, Van Cortland or Pelham preferred, in which the pupils can study nature, doing their own planting and reaping and running it as one would run a farm, only with an infinitely greater variety of plants, trees and shrubs.

As it is today, it is very difficult for the teachers to get the proper equipment for their work, and their Saturdays, supposed to be given over to recreation, are usually devoted to trips out of town, coming back laden with corn, and wheat, and tomato vines, and in fact everything which they may be able to secure on the bounty of the farmers they visit. The proposed farm would obviate this necessity, and make life a little easier for the teachers as well as provide for more rapid advancement of the pupils.

Prof. Brittain of the Bronx Botanical Gardens, sees a utilitarian value in these nature studies. "Formerly, on Saturdays, five or six wagon loads of flowers would be picked by visitors to the gardens," he said today. "Since the nature studies have begun, we do not lose more than two wagon loads."

Summer Home for Pampered Pets.

Not far from New York, in a little town on the Sound, is a summer colony of dogs—not the yellow curs that nip at one's heels in the streets, but high bred, good tempered pets of wealthy people who close up their homes during the hot weather. They cannot always take their pets with them, and this summer resort furnishes the best of care and the proper tone of society for them. This canine summer resort is a big two-story dwelling. The upper floor is occupied by the keeper. The first floor is the living apartments of the dogs. The board costs from $2 to $3 weekly, according to the size of the dog and his appetite. In addition there are medicinal baths, an examination by an expert veterinary every week and a dog gymnasium, which bring additional charges. At present 150 dogs are taking the sea air in this resort.

Typhoid Attacks Summer Resorts.

An epidemic of typhoid fever has caused something of a scare at Bath Beach and Benson Hurst, where there are now 22 cases, and physicians fear an epidemic will spread all along the adjacent shore resorts. Naturally, unclean streets and impure water are blamed. In nearly every one of the 22 cases, the disease can be traced to bathing in water too near the point where sewers empty into the bay. The doctors have warned people to cease bathing in Gravesend Bay, and thereby hope to soon stop the spread of the disease.

Deer Hunting in Bronx Zoo.

The Bronx Zoo seems to have been turned into a hunting ground. The names of the hunters are not known, but eight deer have fallen prey to their appetite for game. The invaders are dogs, and the keepers at the Zoo do not even know how many of them there are nor the color of their eyes. The dogs have been coming at night for some time, and although a strict watch has been kept, they have escaped capture. It is believed that more than one dog is guilty, as dogs usually hunt in pairs. The condition of the enclosures after a deer has been slain shows evidence that the victim did not give up its life without a battle.

Long Distance Trolley a Failure.

After two years' experiment with long distance trolley trains, A. B. Carlton, vice president of the Public Service Corporation, said today that the service from Jersey City to Trenton, via Plainfield, was not a success. After the novelty of the frat-moving, open car trains wore off, people quit riding. The schedule was cut from one train an hour to one every three hours, but even these did not pay. People found the long rides too tedious, and those who wanted to go any distance took the trains on the railroads in preference. Therefore, the long-distance trolley trains will be discontinued, although connections can be made for the full distance at the different points.

No Fear of Yellow Fever.

While the medical authorities of the city are keeping a close watch on all incoming ships from southern ports, there is no real fear that New York is to be invaded by yellow fever. There has been one death at the detention hospital, but the other inmates, seven of them, are doing well and will soon be released. The Morgan lines Comas arrived from New Orleans today, but there was no suspicious illness on board, and she will only be held the usual five days to make certain that she does not carry any infection. The Comas left New Orleans on August 2, with a total of crew and passengers of 128. All will have to take an enforced vacation.

Don't Kick; He's Good Now.

"Any party organization which ceases to be a means to attain good government," says Secretary Bonaparte, "ceases to justify its existence." In that case how does it happen that Mr. Bonaparte did not quit the Democratic party many years earlier?—Kansas City Journal.

ALL ABOUT SNAKES.

Professional Catcher of Reptiles Tells Strange Tales.

There is one man in Boston, says the Globe, who has no fear of women invading his line of trade, and up to the present time he is the only man, as far as known, in Massachusetts who is a professional snake catcher. This man is O. W. Mason, who does not think his living is in any way strange, for he considers snakes far less harmless than dogs or any other pets.

A reporter accompanied Mr. Mason on a snake hunt to the Blue hills the other day, and was shown conclusively that there need be no fear of anybody getting killed from a bite of a snake in this vicinity. When the party arrived at the Blue hills Mr. Mason donned leather gloves, leather gaiters and unfolded his snake-catching apparatus, a long stick from which hung a stout string tied to a sort of dredging machine. The machine was attached to the part of the stick nearest the ground and worked with the string attachment. When a snake is seen Mr. Mason, with the stick in the right hand, string in the left, follows it, places it over the snake's body, pulls the string and his snakeship is no longer at liberty.

"Well," said Mr. Mason after the first snake was caught, "did he run after me or did I have to run after him?"

Avoid Conflict.

"You see," said he, without waiting for a reply, "if I had gone about my own business as it were, that snake would now be enjoying the pleasure of basking in the hot sun. Now," continued he, "a vicious dog would have turned on me without provocation, but no matter how vicious a snake is, he will avoid a conflict.

"I have gone into a den of nearly 100 snakes, and not one of them turned on me. Time and again I have been bitten, but have not yet met anything snake-shaped that I fear. If I were to show the white feather things might be different, but I know what to do when there is danger around."

Near Randolph, about two miles away from the nearest electric road, I catch at least 20 rattlers to one copperhead. There are to be found the old Indian roads, unknown to any but professors from the different colleges that accompany me when there is an investigation of the different snake poisons under way. The copperheads are most plentiful at or near the crags at Milton, very far away from places visited on Sunday by picnicking parties.

Confiding Women.

"They run as high as two pounds in weight and five feet long. Bull snakes, of which there are none in the vicinity, weigh as much as eight pounds and are at least 12 feet long. I have fought them and am ready to do so again.

"Once I fought 14 rattlers. It took me two hours for the last one, and though they were as mad as hornets I got the last one without harm, all alive.

"Strange as it may seem," said Mr. Mason, as he stroked the head of one of the snakes which had ventured to the top of the bag in which it had been put, "women are not as much afraid of snakes as are the sterner sex. A woman will naturally shrink from a snake, but this is due to fear. When, however, she is told that no harm will result from patting its head this way she will forget her fear and will do as I am doing now 10 times quicker than I could get a man to do it. It is the same with women and dogs. Men like dogs, but would not give them the same attention as women do."

PROFITABLE ENTERPRISE

Awaits the Investment of Capital in West Virginia.

As Pittsburgh capitalists have investment interests in the Kanawha valley of West Virginia and the territory contributory to it, the following interview with Assistant State Geologist Grimsley may be of some interest to them. After stating that the survey on the clay, lime and cement resources of the state have been ranked as secondary on the survey, "yet," said Mr. Grimsley, "if developed they would become very important industries." The Charleston Mail reporter with an eye to flushing that portion of the state made other inquiries of Mr. Grimsley to which he replied:

"Very little fire brick is made in the state and carloads of such bricks are shipped into the state and across it to eastern markets, from Ohio and Kentucky, while good deposits of fire clay remain in the ground undeveloped.

"Along Elk river, not far from Charleston, are some good fire clays and paving brick clays which have not received the attention they deserve. The first brick street pavement in the United States was laid in Charleston in the '70's, and for some years afterward Charleston brick were shipped into other states.

"The industry in reality started here, and with the shales and clays so well adapted to this work this city should have been a paving brick manufacturing center to this day, but at present no paving brick are made. Fire brick for the coke region tributary to this section must now be purchased mainly outside of the state, while the proper clays remain in the hills of Kanawha county unused.

"The cement industry in this country is making wonderful progress. New uses are continually found, and in order to supply this increased demand new mills are being erected in the various states where suitable materials can be found. West Virginia has some fine locations for such mills, with limestone, shales and clays close together and near trunk line railroads."

PICKED UP IN LOBBIES

Hobson Wants Justice for China.

"If I could say one word directly in the interest of the United States in the peace negotiations that are now on between Japan and Russia it would be that neither should get possession of Manchuria, but that that province should be placed under the jurisdiction of China. This would be an equitable settlement for the two nations over that phase of the peace situation, and would be hailed with joy by the other nations, and particularly by the United States. China is destined to become a great nation commercially, and it is going for the United States to recognize this in her forward march in commercial supremacy."

This, in substance, was the expression of Capt. Richmond Pearson Hobson at the Union station last evening. Capt. Hobson was for 12 years identified with the United States navy, but is now engaged in lecturing, and incidentally in strengthening himself materially for his campaign for a seat in the national congress from the Sixth Alabama district. He expects to take up this campaign early next spring. He was en route last night from Charles City, Ia., to Parkersburg, Va.

That Capt. Hobson has been enjoying an active life for the past several months is shown in the fact that he has lectured in 119 places in 27 states and two territories since last January 1. He lectured last at Charles City, Ia., will be at Parkersburg and Harrisonburg, Va., tonight and tomorrow night, and will be at Coshocton Thursday evening. In this time he has spoken before more than 100,000 persons. One of the features of his lectures, which have for their main theme the strengthening of our navy, and through this the strengthening of the United States as a peace nation, is the offering of resolutions upon these matters for a popular vote of the audiences. He says that out of more than 100,000 people there have been only seven men who have voted against the resolutions.

In substance the resolutions are: That general arbitration treaties should be negotiated by the United States with all nations; that the United States should bring about a general peace congress or alliance between nations, thus forming the nucleus of a peace union among the nations; that the United States should urge the convening of the second Hague conference and urge the establishment of an international parliament for the administration of justice as justice is administered in the states of the American union; that war is no longer a local affair, but that it affects all nations commercially; that the United States should take a steadfast stand against any steps toward the seizure of China, for such move would put in jeopardy our treaty rights and our commercial interest; that, to give effect to these peace efforts, the United States should speedily increase its naval strength.

Copies of the resolutions as adopted at each of the 119 places where Capt. Hobson has spoken have been forwarded to the representatives and senators and to the president.

GEORGE Z. HOSACK FOR TREASURER

Commissioner Price Denies a Story Concerning His Desire to Be on Fusion Ticket.

WALLACE DOES MORE TALKING

George Z. Hosack of Carnegie, has announced his candidacy for the Republican nomination for county treasurer. So far he has no opposition.

Late yesterday afternoon, Mr. Hosack called at Republican headquarters and signed the "pledge." He starts into the contest with strong backing from the Republican leaders in the Sixth district. Should he be nominated he will have as an opponent on the fusion ticket, a lifelong friend. He and Reid Kennedy, the Citizens-Democratic candidate, attended the same college and were graduated in the same class.

County Commissioner Charles B. Price returned from Chautauqua yesterday, where he spent Sunday with his family. He was considerably surprised to learn a Citizens organ had printed a story to the effect that he would refuse to be a candidate for commissioner unless he was on the Republican and fusion tickets.

"The story is absurd," said Mr. Price. "I am a Republican, and if I am a candidate it will be on the Republican ticket. I would not presume to dictate anything regarding nominations in other parties. Concerning my candidacy, I am not prepared to make a formal statement."

Effort was made yesterday by Mayor Hays to smooth over the reports of trouble between Director Moore of the department of safety and Police Superintendent Wallace. The latter gave an interview to an afternoon paper in which he practically repeated, with something added, what he had said in The Gazette. When asked if Director Moore would resign, Wallace replied:

"It's too soon to talk about that. He has not had time to catch a fish."

Regarding the probability of his preferring charges against Moore, he said:

"Search me. I don't know of any blank around here we could put them on."

Concerning the Station street gambling house, Wallace said: "The director had the name of Bert Baughman's club on the list and must have known of its existence. If he did not, it was because he did not look at the list. Moore has a typewritten list of every club in the town. If there is gambling in the club, he knows it. On one or two occasions clubs have been allowed to open that I knew nothing about until I received notice from the director to add the name of the club to the list in my possession. I have never interferred with the director's club policy, unless it was shown to me there was disorder in these organizations."

When asked if he wanted to be director, Wallace said:

"I do not want to be director unless I am compelled to take the job. I want to be police superintendent in fact as well as in name. Just now we are making pretty fair progress along that line."

W. B. Hays, James W. Clark, J. D. O'Neil, W. S. Woods, J. B. Hershey and R. H. Heath yesterday filed an affidavit claiming the exclusive right in the courts to the party appellation "Citizens" for the fall election.

OLD TOLL ROAD TO BE MADE FREE

County Commissioners Decide to Give $50,000 for Perrysville Turnpike.

GOOD PAYING PROPOSITION

Allegheny county has elected to purchase the Perrysville plank road. For five miles of improved turnpike it will pay $50,000.

Commissioner Price said yesterday he and Commissioner Evans had agreed to make the purchase. So far Commissioner Clark has not joined in the deal, but it is probable he will not object. Even if he does, the road will be bought, as a majority of the board of commissioners is favorable to the expenditure.

Negotiations for the purchase have been on for some time. The owners wanted $60,000. A board of viewers reported in favor of giving $47,500 for the road. Before taking an appeal, representatives of the company talked with the commissioners. It was shown the capital stock of the concern is $53,000. A state tax on this amount has been paid for a number of years. The shareholders have been receiving an annual dividend of 6 per cent.

Commissioners Evans and Price were satisfied the county would be getting a bargain if the road could be bought for $50,000. Such an offer was made and has been accepted by the owners. The freeing of the turnpike will be gratifying news to the farmers and truck gardeners who daily have had to pay toll to use the road in the transportation of their products. The thoroughfare is also much used by those who drive for pleasure. With the freeing of this road there will be just three miles of toll road left in the county. This three-mile stretch lies beyond Perrysville and does not connect with the pike purchased by the county.

RAIN MARS RECEPTION TO FRANCE'S BIG FLEET

However, Thousands Gather to Greet the Warships—Salutes and Calls Exchanged With British Boats.

[By Associated Press to The Gazette.]

COWES, ISLE OF WIGHT, Aug. 7.—The French fleet under the command of Vice Admiral Caillard, dropped anchor in The Solent today to spend a week as guests of King Edward and the British navy. Heavy rains drenched the decorations ashore and afloat, and shrouded in a heavy mist the great gathering of yachts and British warships collected to welcome the visitors. A temporary let-up of the rain brought out the sightseers and thousands lined the sea front at Southsea as Admiral Caillard's fine fleet passed and greeted it with cheers. Off Spithead the first salutes were exchanged between the visitors and the land forts.

The French vessels fired a royal salute in honor of King Edward.

The afternoon was spent in ceremonial calls, commencing with the visit of Admiral Caillard, other French admirals and captains to King Edward. His majesty subsequently returned the visit on board Admiral Caillard's flagship.

TEAMSTERS' UNION GETS PHILADELPHIA CHILL

Finds Non-Union Man Delivering Coal to Hall Where Convention Is Meeting.

[By Associated Press to The Gazette.]

PHILADELPHIA, Aug. 7.—While the delegates to the annual convention of the International Brotherhood of Teamsters were in session today, a delegate declared a non-union negro driver was delivering coal at the building in which they met. A committee was appointed to look into the matter.

Meantime, the negro driver was having a warm argument with several delegates on the sidewalk. Delegate McCullum of New York, was the man who discovered the driver was not a union man. He told the negro he could not deliver coal while the union was in session in the building. The delegate sat on the cover over the manhole, and began making a speech to a rapidly-growing crowd.

The non-union driver appealed to the chief engineer of the building who, finding he could not persuade the delegate to let the coal be shot into the cellar, sent for a policeman. The policeman ordered the delegate off the manhole. He obeyed and the coal was unloaded without further delay. Later in the day a committee reported that the chief engineer of the building had promised no more coal would be delivered by non-union drivers at the building while the teamsters are in session.

Another committee reported that the employes of the bars and barber shops of two hotels where delegates are staying, are not connected with labor unions, and it was recommended delegates patronize the bar and barber shop of another hotel.

President Shea is opposed for re-election by Edward Gould of New York, and Michael Casey of San Francisco.

SENATOR FORAKER IS NOT READY TO TALK

Declines to Answer Question Whether He Is Candidate for Presidency.

HIS FRIENDS ARE AT WORK

The Pittsburgh Gazette Bureau,
Room 10, Postal Building,
WASHINGTON, Aug. 7.

Senator Joseph B. Foraker of Ohio is here for a day or two, en route east on private business. While other presidential candidates have been cavorting around the country, making speeches and stirring up fun and trouble, Mr. Foraker has been living quietly down in Cincinnati, nursing his ambition fondly but carefully, and watching the political weathervane.

When asked to discuss politics today Mr. Foraker showed no great desire to air his views. He was careful and conservative, which was something new for Foraker. He thought Herrick would be elected governor of Ohio by a good majority. He considered the situation in the state very promising for the Republican ticket from top to bottom, regardless of the fight the anti-saloon interests are stirring up. That is about all he had to say, except that he was feeling bully and was enjoying his vacation.

For some time friends and supporters of Senator Foraker have had their ears to the ground waiting for an announcement from their chief that would summon them to action. They have been expecting him to make a statement that would let the world know he is an out-and-out candidate for the presidency, but the slogan has not been sounded. When asked today for some statement relative to this subject the senator declined.

Friends Are Working for Him.

Meanwhile the senator has many friends out in the Buckeye state who are quietly fixing things to get him the Ohio delegation in 1908. Foraker's friends are the kind that will work in season and out for him. They are not the fair weather sort. The great question with them is whether the state organization will stand for Foraker. It requires violent trituration to make oil and water mix, but it is possible some modus vivendi may be discovered that will bring the Republican strength together for the senior senator.

But first Taft must be disposed of. He has never indicated he wanted the Ohio delegation, but there are a lot of Republicans out there who want him, and—they don't want Foraker. Taft is supposed to be a candidate for chief justice of the supreme court, but his fellow citizens of Ohio have a confirmed suspicion he will not shy off from the presidency if he sees it coming his way.

Senator Dick, chairman of the state central committee and leader of the dominant faction of Ohio Republicans, has made no public statement of his preferences. It scarcely would be supposed he would wax enthusiastic over the Foraker boom, and yet it would not be surprising if Taft should indicate he had no intention of being a candidate, that Dick and his friends would climb into the Foraker bandwagon.

Foraker Is Satisfied.

Ohio, of course, must have a candidate, and if Foraker is the leading aspirant the organization would naturally back him up. It is intimated that some of the powers in the state have already expressed a preference for Foraker. At any rate, the senior senator says he is entirely satisfied with the situation and acts like he meant it. However, Secretary Taft will be back here about October 1.

Presidential booms are active these days. Some of them are victims of a bear movement and others are somewhat bullish. Secretary of the Treasury Shaw will make a speech at the Virginia Republican convention Wednesday, which he expects will win him the Virginia delegation. He will make a strong talk on the tariff and will take a stand-pat attitude.

Meanwhile the Cummins faction are making it interesting for Shaw at home. They are launching the Cummins boom in Iowa, and even in Nebraska it is reported Cummins clubs are being organized. But that bear attack is compensated for in part by the encouragement the Shaw boom is receiving in Illinois. Representative Lorimer, one of the leading Republicans there, is nursing it along, just as though "Uncle Joe" Cannon were not a resident of that commonwealth.

Fairbanks' Boom Punctured.

But the Fairbanks boom has sustained a puncture that has caused it to lie up for repairs temporarily. Representative O. Crumpacker has declared for Shaw, and it is understood Representatives Overstreet, and Charles B. and Fred Landis will soon climb into the Shaw bandwagon. Senator Beveridge is camping out in the Wisconsin woods, but word is daily expected from his solitary retreat that he will enlist in the anti-Fairbanks campaign.

This is a case of Mr. Fairbanks' chickens coming home to roost. They were driven from the poultry yard last year when he went on the national ticket as the candidate for vice president. Then there was a scramble for his seat in the United States senate, and the sentiment among candidates was "Let the best man win."

Judge Crumpacker was in the field and so was Representative Charles B. Landis. Col. Harry New, in charge of the Chicago headquarters of the national committee, was also an aspirant. But Mr. Fairbanks mixed in and organized the state for Hemenway, and the result was that Crumpacker and Landis were forced out of the race and when New returned to Indianapolis he found it was all over but the shouting. Hence there has been a bevy of Hoosier politicians lying low in the scrub grass for a chance to get even, and they think it has come.

If Beveridge joins in the anti-Fairbanks movement, it is doubtful if the vice president can get the Indiana delegation instructed for him. In any event he cannot get it without a fight, unless he can satisfy the ire of those who are camping on his trail. All of which indicates that the identity of the next president is still a matter of grave doubt.

MORE DEATHS LIKELY.

Expected Six of the Injured in Cleveland Grade Crossing Accident Will Not Survive.

CLEVELAND, O., Aug. 7.—Reports today from hospitals to which the victims of last night's grade crossing accident were taken, show that only one death had occurred, but six of the badly injured will probably die.

V. V. Little, the gateman at the St. Clair street crossing has been held upon the charge of manslaughter. He says the gates were not lowered.

James Martin, whose daughter was killed, while his wife and two other children were badly injured, is today reported to be insane as a result of the accident. Mrs. Martin is not expected to live the day out.

MILLION DOLLAR DORMITORY.

Frederick W. Vanderbilt Presents the Second Great Building to Yale.

NEW HAVEN, CONN., Aug. 7.—(Special.)—The Sheffield Scientific school of Yale will have another million dollar dormitory erected within a year. The donor is Frederick W. Vanderbilt of New York, a graduate of the school in the class of '78. He gave a million dollar dormitory to the school a year ago in memory of his brother, the late Cornelius Vanderbilt.

Prof. Chittenden, director of the school, said today that in design, material, and cost the new dormitory would correspond closely to that erected last year. It will stand in College street between Byers and St. Anthony Hall.

NEWS OF THE NEARBY TOWNS AND COUNTRY

USES HATCHET ON WOMAN, THEN DIES FROM ACID

Harry Colvin Murderously Assaults Maggie Shaffer, Then Kills Himself. Jealousy the Cause.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CANAL DOVER, O., Aug. 7.—Jealous because he heard she was receiving attentions from a rival, Harvey Colvin, aged 23, at New Philadelphia this afternoon beat Maggie Schaffer, his sweetheart, on the face and head with the edge of a sharp hatchet and then swallowed the contents of a pint bottle of carbolic acid.

Colvin lived but a few hours after the tragedy, while the woman is in a hospital here, her death being momentarily expected. Colvin had been courting the Schaffer woman for more than a year, but had at all times been jealous, and it is said that he frequently threatened to take his or her life.

Calling at the Schaffer home shortly after noon today he seemed to be in an ugly mood. It is not known if he had any words with the woman, but he had been in the house only a short time when neighbors heard cries and moaning coming from the direction of the Schaffer home. The woman was lying in the yard with blood streaming from several gashes in her head. Colvin was stretched at full length on the floor and the empty vial and acid burns on his face told how he had sought self-destruction. The hatchet was close by his side.

The woman is 22 years of age, and is the mother of three children by a previous marriage, having been but recently divorced. Colvin met with an accident less than a year ago, since which time it is said he has been mentally unsound.

Greater Greensburg Council Organizes.

GREENSBURG, PA., Aug. 7.—(Special.)—The consolidated councils of Greater Greensburg effected an organization tonight by the election of Dr. P. T. Cole, president; E. A. Cremer, clerk; R. L. Laird, solicitor; A. K. Hutchinson, chief of police; Warren Mitchell, engineer; D. P. Hudson, treasurer; George Maxwell, cartman; William Snite, electrician. The new body is made up of 38 councilmen.

Thieves Broke the Bank.

TITUSVILLE, PA., Aug. 7.—(Special.)—Giovannie Francisco, an Italian laborer, who lived alone in a little shanty in Garden street, had saved up nearly $600, which he kept in an old trunk. While at work this afternoon sneak thieves broke down his door and rifled the trunk and secured the money.

Tin Openers on Strike.

LEECHBURG, PA., Aug. 7.—(Special.)—Twenty-three of the 33 openers at the American Steel and Tin Plate Company's plant here went on strike this afternoon. They said they received but $1.65 for eight hours work and no pay for overtime. Their places have been filled.

Church Appointments at Latrobe.

LATROBE, PA., Aug. 7.—(Special.)—The Rev. Father Leo, O. S. B., has been appointed director of St. Vincent's college. The Rev. Titus Deruksienig has been appointed to the pastorate of St. John's Catholic church here.

YOUNG MAN MURDERED.

He is Mysteriously Shot Down In Vacant Lot After Paying an Evening Call on a Young Woman.

CANONSBURG, PA., Aug. 7.—(Special.)—Clair Bain Hamilton, 18 years old, son of Robert D. Hamilton, a well known farmer of Chartiers township, was found dead at Meadow Lands with a bullet hole in his breast. There is no clue to the murderers.

Young Hamilton left his home about two miles northeast of Houston, Sunday evening and walked to Houston, where he boarded a street car for Meadow Lands. He was going to visit a young woman in Meadow Lands, and after leaving her home, shortly before 10:30 o'clock, in order to catch the last car, he started down the railroad track to make a short cut. He was shot down in a vacant lot between the railroad and John H. Cook's store, where the street ends.

Roundheads Preparing for Reunion.

NEW CASTLE, PA., Aug. 7.—(Special.)—Preparations are under way for the 40th annual reunion of the Roundheads, One Hundred and Fortieth regiment Pennsylvania volunteer infantry, which will be held at Grove City, August 16. The society was organized in Pittsburgh in 1866. The officers of the society are: President, Alex B. McKay, Grove City; vice president, Joseph A. Craig, Grove City; secretary, James C. Stevenson, New Castle; treasurer, George O. Jones, Washington, and chaplain, Alvin M. Reed, Vienna, O.

Glass Works Will Resume.

ELLWOOD CITY, PA., Aug. 7.—(Special.)—After being idle for 18 months the glass factory formerly operated by Clark brothers will be in operation in a few weeks. The factory will be conducted by Charles Runyan of Rochester, Pa., who is associated with a number of glass manufacturers. A charter has been granted the new firm under the name of the Ellwood City Glass Company.

Death Follows Mine Explosion.

UNIONTOWN, PA., Aug. 7.—(Special.)—The explosion in the mines of the Lincoln Coal and Coke Company at the Keister works Saturday morning has resulted in one fatality, Edward Shetler, aged 20 years, having died at the Uniontown hospital Saturday night from his injuries. Two of the other five men injured are badly burned, but will not be removed to the hospital.

Farmer Accidentally Shot.

EAST LIVERPOOL, O., Aug. 7.—(Special.)—Kirk Doak, a well-known farmer near Hookerstown, Pa., was found helpless in a field with his entire lower jaw shot away. He had gone out with a shotgun to hunt hawks, and it is supposed the weapon was accidentally discharged. His recovery is doubtful.

Leechburg Plant Breaks Down.

LEECHBURG, PA., Aug. 7.—(Special.)—With a tremendous noise a cylinder of one of the large engines in the American Steel and Tin Plate Company's plant blew out today. The accident was caused by a broken piston rod. Seven mills have been closed down, which will force 100 men out of employment for two weeks.

AFTER RAILROAD THIEVES.

West Penn Railroad Detective Arrests Five Men Charged With Robberies.

BLAIRSVILLE, PA., Aug. 7.—(Special.)—Officer C. D. Sweet of the West Penn railroad arrested at Blairsville station today Ben Shirley of Bolivar, Daniel Stiffey, alias "Pug," and a man named Cochran, charged with breaking into and robbing the railroad and the express office at Bolivar July 24 and August 1.

Shirley had purchased a ticket to Allegheny and was on his way to Missouri. They were taken to Bolivar and placed under $1,000 bail. Another man arrested was released for want of evidence. Officer Sweet also arrested West Grey and Turner Young for breaking into cars and stealing at Edri, their home being at Mowrytown. They were sent to jail.

OHIO MILITIA ARE BOUND FOR CAMP

MARIETTA, O., Aug. 7.—(Special.)—Marietta will have as her guests tomorrow the Seventh regiment of infantry, O. N. G. Eight hundred officers and soldiers will come here from various points in the eastern and southern part of the state. Col. C. A. Thompson of Ironton, has issued a general order in which he names the camp in course of erection in this city, "Camp Henry D. Knox," in honor of Col. H. D. Knox, who has charge of local Company B, Seventh O. N. G.

Stewart Confident of York.

YORK, PA., Aug. 7.—(Special.)—The Democratic forces are gathering here tonight. They will meet in convention tomorrow and nominate a candidate for judge. There are four candidates in the field: Judge W. F. Bay Stewart, N. M. Wanner, John Logan and Charles A. Hawkins. Judge Stewart claims 77 delegates at this time. It requires 83 to nominate, but he believes he will win.

Harmony in Republic Board.

YOUNGSTOWN, O., Aug. 7.—According to dispatches from New York harmony has been effected in the board of directors of the Republic Iron and Steel Company, and when the annual meeting is held in October the John W. Gates and the A. W. Thompson factions will not clash. It was rumored that Gates would make a determined effort to secure control and change its business policy.

Joker Given a Light Fine.

GREENVILLE, PA., Aug. 7.—(Special.)—Joseph Owen, a Pittsburgh excursionist, was today fined $10 and costs on a charge of malicious mischief preferred by the Bessemer & Lake Erie Railroad Company. Owen uncoupled the rear coach of an excursion train Saturday and had his act not been discovered quickly a fatal accident might have resulted.

Wallower in the Lead in Dauphin.

HARRISBURG, PA., Aug. 7.—(Special.)—William W. Wallower was nominated for county commissioner over John P. Dohoney, the incumbent, and Samuel M. Taylor at Saturday's Democratic canvass. With 18 out of 100 districts to hear from, Wallower polled 1,814 votes; Dohoney 1,125, and Taylor 427.

sale tan shoes

500 pairs Women's $3.50 to $5.00 Tan Oxfords, $2.00 a pair.

White Canvas Shoes—they're extraordinary vogue—played the deuce with the Tan Shoe business.

That's why we've got so many Tans to sell at a loss.

They're Newport and Christy Ties, Bluchers and regular Oxfords, all up-to-date, fashionable lasts.

Correct shades—Champagne, Medium Tan, Nut Brown, etc.

Tans are not dead by any means—they'll be wanted and worn long after White Canvas has ceased to be heard of.

But we've got too many for now—hence this sacrifice price—$2.00.

silk stockings

At last we are able to offer you another lot of fine $1.50 to $2.25 Black Pure Silk Stockings, $1.00 a pair.

Gauze—medium and heavy—all sizes—some with cotton soles.

You've bought similar Stockings from us before and bo't them quick.

This time as there's only a small quantity—312 pairs—we'll have to limit the quantity to any one person to six pairs, so there will be enough to go around.

feather hats

Yes, Hats made altogether of feathers.

They will have a distinct reign this Autumn.

We've got the first ones in—Colonial styles, Turbans and Face Hats.

White, Black, Brown, Blue, Green and Combinations, $6.50 to $12.00.

We never yet presented so smart a showing of Felt Hats.

All the shades that good taste suggests—White, Grey, Castor, Brown, Blue, Green.

Plain or Trimmed—Fancy Wings, Coques, Kid Bands, Plaid Scarfs, etc.

Prices, $2.50 to $9.00.

The Felt Hats this time possess a new tone—texture, coloring, tasteful fashioning.

They should be seen.

flouncings, 10c

They're 20 cent Cambric Petticoat Flouncings, 8 inches deep.

You'll expect them to be rather poor merchandise when priced half, so it will be all the better when you find what nice goods they really are.

Three patterns plain and cluster tucked 75c White Batiste for Shirtwaists, Yokes and Chemisettes, 25c

Lot of $2.50 hand embroidered Linen Waist patterns, $1.50

FORSAKEN BABY'S MOTHER ARRESTED AT HER HOME

Father, in Jail Here, Confesses to a Share in Deed, but Puts Blame on Girl.

Word was received by Superintendent of Detectives McQuaide last night that Mary Smith had been arrested at her home in Woonsocket, R. I., and had agreed to come to Pittsburgh, without extradition papers, to answer the charge of abandoning the infant found on the steps of F. C. Beinhauer's home last week. Charles Stevens, who admits that he is the father of the child, is already in jail, charged also with abandoning the baby.

Stevens was found by the detectives by the aid of a laundry mark on a handkerchief that was laid over the face of the abandoned baby. In talking with McQuaide he tried to place most of the blame on the girl, saying that while he had agreed thus to dispose of the infant he did not actually put it on the Bienhauer porch. He said that he had boarded at the Smith home, in Woonsocket, and had betrayed the girl. Then he came to Pittsburgh whither the girl followed him about two months ago. The baby was born four weeks ago.

Stevens said he was unable to support the mother and child, and insisted that she return to her home. Before she left the child was abandoned. Stevens says the girl did not want to leave the child. He said he would have married the girl had he been able to support a wife. The baby is in good health and is being cared for at an institution.

RELIEF PARTY FAILS.

No Trace of Zeigler Polar Party Discovered on Shannon Island, Dr. Fassig Reports.

BALTIMORE, Aug. 7.—The News has received a cablegram from Dr. Oliver L. Fassig of the Zeigler relief expedition, at Edinburgh, saying no members of the Zeigler expedition were on Shannon Island July 21.

Dr. Fassig, who is an official of the government weather bureau, is the scientist of the relief expedition, which sailed from Sanderfjord, Norway, on May 17 on the Magdalina for Shannon island on the east coast of Greenland, with the hope that some few members of the Zeigler expedition, which sailed for the Arctic regions from Norway in July, 1903, under command of Anthony Fiala of Brooklyn, might have be found there. It is understood here that the Magdelina, having failed in its purpose, will now return to Norway.

GETS FATHER'S WRITINGS.

Mrs. Whitney Will Edit Unpublished Manuscript Left by Late Secretary John Hay.

NEW YORK, Aug. 7.—(Special.)—Mrs. Payne Whitney who was Helen Hay, daughter of the late Secretary John Hay, who has inherited to a very special degree her father's literary taste and talents, has been bequeathed a large number of her father's unpublished manuscripts.

Mr. and Mrs. Whitney sailed from England today for New York, and on their arrival here next week, after a brief visit to Mrs. Hay at the Fells, her summer home on Lake Sunapee, will go to their country place near Manhassett, L. I., where Mrs. Payne Whitney will devote herself to the preparation for publication of the manuscripts.

The Death Roll

Paul Andre.

Paul Andre, aged 75, father of the late Mayor James Z. Andre of McKeesport, is dead at the family homestead in Boston, Pa., where he had lived for the last 40 years. Mr. Andre's death was due to a complication of troubles incidental to advanced age. Deceased was born in Germany, but came to this country at the age of 18 years, residing in Allegheny county almost continuously since that time. He was widely known among the earlier river men. He owned a coal mine near Boston, and supplied private trade surrounding his home. For a number of years he had been retired from active business. For 38 years he was a member of Blucher lodge, I. O. O. F., which will have charge of the funeral services. He was a member of Boston Methodist church and of the A. O. U. W. He is survived by his widow and the following children: Mrs. Annie Haney, at home; Mrs. Sophia Moran of Indian Territory, Mrs. Margaret Beranger, Greenock; Mrs. Mary Diehl, Fort Vue; John D. and David B., at home, and W. Paul, Jr., near Boston.

John E. Becker.

John E. Becker, aged 63, was found dead in bed yesterday morning at his home, 1720 Cecil street, Sharpsburg. He had suffered for several years with cancer of the face. Mr. Becker was born in Germany and came to this country in 1865. He lived in Natrona for many years and later went to Great Bend, Kan., where he lived until 1897, when he came to Sharpsburg to make his home with his son, Mathias Becker. He was a member of St. Mary's Roman Catholic church of Sharpsburg. His wife, Mrs. Annie Becker, died in 1894, and he is survived by three children—Mathias of Sharpsburg and Joseph Becker and Mrs. Sofie Mayer of Great Bend, Kan.

George W. Rumsey.

George W. Rumsey, aged 74, died last Saturday night at his home, 1820 Irwin avenue, Allegheny. He was born at Oldtown, Trumbull county, Ohio, and came to Allegheny when a boy. He worked for many years on steamboats plying between Pittsburgh and New Orleans, later becoming a salesman for Marshall, Kennedy & Co. of Allegheny. He was a member of Stuckrath lodge No. 43, F. and A. M.; Allegheny chapter No. 217, R. A. M.; Allegheny council No. 38, R. and F. M., and Allegheny commandery No. 35, Knights Templar. He is survived by his widow.

Joseph T. Kittell.

Joseph T. Kittell, aged 53, died at Mercy hospital last night. He was born in Ebensburg, and for 30 years lived in Harrisburg. Ten years ago he moved to Braddock. He was a member of St. Brenden's Roman Catholic church, Braddock, and a first cousin of the Rev. Father Kittell, chancellor of the Pittsburgh diocese, and the Rev. Ferdinand Kittell of the monastery at Latrobe. His wife died seven years ago, and he is survived by two daughters, Alice and Mrs. J. W. Bangler of Braddock, and one son, Edward, of Braddock.

Joseph W. Shaw.

Joseph W. Shaw, aged 75, died Sunday at the home of his in-law, 427 Alexander street, McKees Rocks. He was born in Ireland and came to this country in 1875, settling in Johnstown, Pa. Several years later he moved to Pittsburgh, and then moved to McKees Rocks in 1885. He is survived by one son, Daniel Shaw, of Braddock; two daughters, Mrs. William McKay of Belfast, Ireland, and Mrs. W. Hemphill of McKees Rocks, and one sister, Mrs. Ann Reynolds of Pittsburgh.

Mrs. Anna White Booth.

Mrs. Anna White Booth, aged 58, wife of Thomas Booth, died Sunday at her home, 556 Church avenue, Allegheny. She was born in Ireland, and came to this country with her husband in 1872, and located in the Fourth ward, Allegheny. She was a member of St. Andrew's Protestant Episcopal church. Her husband and the following children survive: Mrs. David P. Marshall, Mrs. Silas C. Johnston, Misses Mary and Annie Booth, William J. and Thomas J. W. Booth.

Mrs. Eva Brandenstein.

Mrs. Eva Brandenstein died at her home, 221 Gross street, Bloomfield, yesterday. She was born in Bavaria in 1835, and came to America 45 years ago. She lived in Braddock the greater part of the time, removing to the Bloomfield district only recently. She was a member of St. Joseph's Roman Catholic church, Braddock, and is survived by two daughters, Mrs. Frank X. Feitzer, and Miss Lena Brandenstein, both of Bloomfield.

Mrs. Mary Ann King.

GREENSBURG, Aug. 7.—Mrs. Mary Ann King, widow of David King, is dead after a short illness. She was 82 years old. Eight children survive: Byron W. King, Pittsburgh; W. S. King, Mt. Pleasant; David B. King, New York; J. H. King and F. E. King, Greensburg, and Miss Marietta King, at home. One brother, William S. Sumpson of Mt. Pleasant, also survives.

Alexander Melville Bell.

WASHINGTON, Aug. 7.—Alexander Melville Bell, father of Prof. Alexander Graham Bell, died at the home of the latter at 9 o'clock this morning in the 86th year of his age from pneumonia, following an operation for diabetes performed last Tuesday. He was born in Scotland, a son of Alexander Bell, and was one of the three generations notable because of their developments of the art of instructing the deaf and dumb in methods of communication.

The Rev. Lewis Albright.

NEW DELAWARE, O., Aug. 7.—Word reached here from Asheville, N. C., of the death of the Rev. Lewis Albright of this city. He is widely known in Ohio, having been presiding elder of the North Ohio Methodist conference, a trustee of Ada university and of Ohio Wesleyan university. His daughter was wife of President George, former president of the Ohio university, who sued his wife's relatives for $10,000 damages for interference in his domestic concerns and causing his wife to leave him.

PITCHERS' BATTLES PROVE TIRESOME TO FANS

AN EVEN BREAK FOR THE PIRATES

Boston Takes the First Game Through Willis' Good Pitching, but Locals Secure Second.

ARE VERY SLEEPY CONTESTS

An even break was the best the Pirates could get out of their double-header with the Boston team yesterday, losing the first game 3 to 0 and winning the second 3 to 2. Both contests were battles between pitchers, and both lacked exciting features—in fact, the work of the players was at times lifeless and in strong contrast to the strenuous games with the Giants last week.

The Giant series seemed too much for the Pirates, and when McGraw and his team deserted the field on Saturday afternoon they seemed to take with them all the ginger Clarke's crew had stored away. The 5,360 spectators who turned out for the bargain day event tried their best to get the players to wake up, and kept yelling at them to no purpose. The only plays out of the ordinary yesterday turned up during the latter part of the second game. One was a fast double play by Leach and Howard, made possible by the clever work of Howard, and the other was a fly catch by Fred Clarke.

Clarke's catch, which wound up the second game, was a beauty bright sure enough. Moran, who was batting for Lauterborn, caught one of Deacon Phillippe's curves on the end of his bat and it looked like a safe hit over second base. Clarke tore across the field and just managed to get the ball while bent forward, and he held to it, completing a very sensational play. These two occasions, and another when Beaumont drove the ball against the fence in deep middle field for a home run in the first inning of the second game, were the only chances the spectators had to cut loose in the cheering line.

When the Pirates took the field for action in the first game Hans Wagner was missing from his accustomed place at short, and the reason therefor was that President Pulliam had adjudged him guilty of throwing a ball at Umpire Bauswine on Wednesday last and had fined him $30 and suspended him for three days. This necessitated a shifting of players, and Leach was back at his old place at third base. Brain went to short and Beaumont to middle field. Wagner took in the game from the grandstand, accompanied by Harry Smith, the catcher who has reported for duty again.

The first game was a battle between Pitchers Flaherty and Willis, with the Pirate having a slight shade the best of it until the eighth inning, when the visiting batsmen got the hang of Patsy's curves and pounded them for three runs. With one out in the eighth inning Lauterborn batted the ball over Flaherty's head and reached first in safety. Willis followed with a single to left and Abbattichio slammed the ball against the left field bleachers for three bases, scoring both Lauterborn and Willis. "Patsy" counted a moment later on a single by Tenney. The Pirates tried hard to even matters up, but could do nothing, as Willis was their master at all stages.

The second game had Fraser and Phillippe for its pitchers, and from the manner in which the locals opened on "Brother-in-Law Chic" it looked as though they were going to drive him back to the farm in Kansas. Clymer started things going by reaching first on a wild throw by Lauterborn. Clarke, just to show he had no hard feelings against his relative, soaked the ball to middle field for a single. Leach helped the runners along by a neat sacrifice and Beaumont kept the good thing going by driving the ball to the fence in deep middle field for a home run, scoring Clymer and Clarke ahead of him.

This made a fine start for the locals, and they needed the three runs, as they were all they got. After the first inning Fraser settled down to his real stride and for the other eight innings allowed only three hits, one in the third and two in the fourth. After the fourth not a safe hit was made. Phillippe figured on an easy game after the first inning, but he was fooled, and had to pitch the best he knew how to keep the visitors from annexing the second game. It also required good fielding back of the Deacon to keep the runners off the bases.

The visitors got their first run in the second inning when, with one out, Raymer singled, went to third on a wild pitch and scored on a single by Fraser. Dolan scored their second run in the sixth inning when he led off with a single and got around on a single and an out at first. The visitors made a hard try to tie the score in the last inning, but a sensational catch by Clarke blasted their hopes. The score:

BRADDOCK'S HOT FINISH BEATS YOUNGSTOWN, 4 TO 3

Tommy Thomas Has His Game Won Up to the Ninth, When the Home Team Scores Four Runs.

Tommy Thomas, the "hard luck" pitcher on the Youngstown team, pitched superb ball yesterday at Braddock, but with one man out in the ninth the worm turned and the home team chased in four runs, nosing out Marty Hogan's champions, 4 to 3. It was a great finish, and the natives were correspondingly happy. This is the way Youngstown lost:

Sandherr filed out, but Bailey took two bases on a wallop. Phyle made a low throw to first on Sweeney's grounder and Bailey romped home, Sweeney going to second. Brisbine scored Sweeney with a single. Brisbine stole and scored on Sammy Smith's single. Thomas at this juncture drove the ball in Keller's ribs. Edmundson was retired, but Porter uncorked a single and Smith raced home with the winning run.

Youngstown scored three runs in the eighth through consecutive hitting. Some dopey work on the bases earlier in the game cost runs. Marty Hogan wants today's game badly, and it is likely he will send Cecil Armstrong to the firing line. Hogan last night said he would add no more pitchers to his staff, as the injury to Jack Dolan's hand is not as bad as at first thought. Dolan will be able to work by the end of the week. Score of yesterday's game:

WASHINGTON, PA., Aug. 7.—(Special.)—The fifth game of the series between Washington and Waynesburg went to the home team this evening, 3 to 1. It was one of the best contests of the year. Cannon twirled superbly for Waynesburg, outpitching McHale, who also did splendid slab duty for the locals. McHale kept his hits well scattered, however. Attendance, 650. Score:

UNITED STATES TO HELP EDLIS

Immigrant Inspector Layton Is Applied to for Assistance, Which He Promises.

SCORES POLICE OFFICIALS

The United States will aid in the moral cleaning of the hill district. Failing to enlist the help of the police and detective bureaus Adolf Edlis, who is determined to drive out of the district the men who live from the earnings of disreputable women, first enlisted the aid of the Humane society, then that of the district attorney's office, which yesterday started to make arrests. Yesterday Mr. Edlis applied to the immigrant inspector, Robert D. Layton, and Mr. Layton has promised to do all he can to help in the work.

While the two men arrested yesterday are negroes, Mr. Edlis says that a deplorable number of the immoral women in the hill district who support still more disreputable men are Jewesses, many of them recent arrivals from Russia. In looking about for help Edlis thought of the immigration bureau and the wide powers at its disposal.

"Inspector Layton told me," said Edlis, "that if I would obtain the names of the women and learn the date of their arrival in this country and the name of the steamship on which they came much could be done in case too long a time has not elapsed since they landed. Immigrants of immoral character, persons brought into the country for immoral purposes can be deported at the expense of the steamship companies which brought them over. Under this regulation it may be possible to deport hundreds of women.

"Of course I am not after the women; it is the men whom I wish to punish. It will be some punishment to them to send their means of support out of the country, but by taking up the cases of the women it may be that the men can be brought to justice. It is very likely that the women, before consenting to be sent back to their old homes in disgrace, will betray the men who either brought them over for immoral purposes or are now being supported by them. Perhaps by their testimony we can send a batch of the procurers to prison and ultimately break up the den of iniquity fostered by them; dens that demoralize and corrupt the young of both sexes in the hill district. I say both sexes, for it is well known that young men, seeing the well-dressed condition and prosperous appearance of the procurers, have taken up the life themselves as a way of making easy money.

"The police bureau still continues to do nothing, although police officials well know the location of the restaurants in which the women and men congregate. It can be proved that police officials visit these places and drink the liquor illegally sold there, sitting at a table with an innocent looking coffee cup containing beer or whisky before them."

Edlis said that he hoped the public would contribute funds to the Humane society, which has promised to aid in the cleaning up of the hill district. He has already received offers of financial assistance and has asked that the money be sent to the Humane society. Subscription papers have been placed in a number of business houses.

The negroes arrested yesterday on information made by County Detective Robinson before Alderman Toole are William Kattinning and Melvin King. They were sent to jail in default of $1,000 bail each, charged with misdemeanor under the act which Edlis had passed by the legislature to reach the men against whom he is conducting his campaign.

SOCIETY

THE Rev. Mr. and Mrs. Edward Twitchell Ware are now in Southwest Harbor, Me. Mrs. Ware, it will be remembered, was Miss Alice Holdship previous to her marriage, which took place at her home in Wallingford street, Shadyside, in the early summer. She and her husband have been in Maine ever since their wedding. They expect, however, to go to the Adirondacks about the middle of this month, and will remain in the mountains until September. Mrs. Henry Holdship, Mrs. Ware's mother, who went to the mountains shortly after her daughter's marriage, will make her home with her son-in-law and daughter when they go to housekeeping at Llewellyn Park, Orange, N. J., in September. Mr. Ware, who was chaplain of the Atlanta university, Atlanta, Ga., will reside in Orange as the eastern representative of the university.

Two Fall Weddings.

Two early fall weddings are on the schedule for Sewickley, one to occur during the first week of September. It is that of Miss Marie Lamble, daughter of Mr. and Mrs. Joseph Lamble of Glen Osborne, to Joseph Fleming Shannon of Edgeworth. The Rev. R. M. Milligan, pastor of the Sewickley United Presbyterian church, will officiate, and there will be a large bridal party. A wedding in October will be that of Miss Ida Sipe, daughter of Mr. and Mrs. William Sipe of Sewickley, and Charles E. Marks of New York. This marriage will be solemnized in St. Stephen's Episcopal church, the Rev. Robert A. Benton officiating. This bridal party will also be large.

The Verners at Alexandria Bay.

Mr. and Mrs. Clifton A. Verner of Lang avenue, Homewood, left the city last week for the Thousand Islands. They, with their children, Miss Margaret Irene, Miss Katherine and Alexander W. Verner, expect to spend the next few weeks with Mr. and Mrs. Alexander R. Peacock at their summer place on Alexandria bay. Mrs. Peacock is entertaining extensively this summer, and in addition to the Irene, the yacht which Mr. Peacock and Daniel M. Clemson own jointly, there are several smaller launches that are constantly brought into service for guests of the two families.

Pittsburghers at Eastern Wedding.

Mrs. T. J. Keenan and her daughter, Miss Sophie H. Keenan, of this city, will leave tomorrow morning for West Chester, Pa., to attend the wedding of Miss Fannie Brook Darlington of that place and Robert Emory Storrs of Macon, Ga., which is set for Thursday afternoon. The two Pittsburghers will spend a week with Mrs. Frank J. Darlington, the bride's mother, and will then go to Eaglesmere, near Williamsport, for a fortnight.

Chicago Visitor in Allegheny.

A number of small and informal affairs are being made for Mrs. N. V. Sanders of Chicago, who is in Allegheny as the guest of Dr. and Mrs. Charles H. Voigt of North avenue. Mrs. Sanders has been here for three weeks, and will remain until September. Dr. Voigt's mother, Mrs. Louis H. Voigt, and her daughter, Miss Minna L. Voigt of North Negley avenue, are spending a fortnight at Rosepoint, near Ottawa, Canada.

Miss Blumberg's Wedding Day.

Tuesday, September 5, has been chosen by Miss Caroline Blumberg as the date for her wedding to Charles Friend of Milwaukee. Miss Blumberg is the daughter of Mrs. Albert Blumberg of Baum street, and is a member of the Woman's club of this city and of the Columbian Council of Jewish Women. The prospective bridegroom is a Milwaukee lawyer. He will take his bride to that city after their wedding trip.

Will Build New Home.

Dr. and Mrs. Albert Pettit will give up their home in Bartlett street, Squirrel Hill, early in October and will immediately begin the erection of their new home on the lot opposite the Sixth Presbyterian church, Forbes and Murray avenues. They expect to take possession of the home about the first of February. Neither Dr. Pettit nor his wife will leave Pittsburgh this summer, as it was only a month ago that the former returned from the Isle of Pines, their winter home.

Dance at Luna Park.

Nearly 300 guests were present last evening at the Keystone Bicycle club's dance in Luna park. The affair, which was a shirtwaist event, was one in the summer series being conducted under the auspices of the club's entertainment committee. The members of the committee are Woodward Awl, J. H. Blackburn, Charles Walters, Harry Estep, John R. McKenna, Alan W. Jones and T. Morrison McKenna.

Notes of Late Summer Tourists.

Dr. and Mrs. J. Hartley Anderson of Fifth avenue, Shadyside, and their children, have recently returned from a trip to Somerset, where they stopped at the Highland inn.

Mr. and Mrs. David Lindsay Gillespie and their daughter, Miss Mabel Lindsay Gillespie, of the Hotel Schenley, will leave next week for Spring Lake, N. J., to remain for some time.

Home from Eastern Tour.

Mrs. Thomas McKenna of Howe street, East End, is home from an extended eastern tour. Mrs. McKenna was absent from the city for a month, during which time she visited her daughter, Mrs. Daniel Carlos Stewart, at her home in Philadelphia. Mrs. Stewart has visited her mother since the latter's return to Pittsburgh, but is once more at her home in the Quaker city.

Off for New Canadian Resort.

A party of Pittsburghers left on Sunday morning for Temagami, the new lake resort in Northern Canada. In the party were William Fleming Abel, Mr. and Mrs. J. W. Sherrer, the latter Mr. Abel's sister-in-law; her mother, Mrs. Daniel Coyle; A. E. Siedle and Mr. and Mrs. Carl Borchers. All will remain in the Dominion during August.

Notes of Society.

A small but prettily appointed tea was given on Saturday by Miss McConnell of Sewickley in honor of Mrs. Harrison Harrington Pease, a recent bride, and her sister, Miss Wilson of Philadelphia, who has been in the valley for two weeks. Francis S. Wilson of Spokane, Wash., a brother of the two guests of honor, was also present.

Mrs. A. Skirivei of Cleveland, formerly of Homestead, is visiting her sister, Mrs. E. Wayne of West Braddock.

Arthur Fisher of the East End and Marcus Wayne of Braddock are making a visit at Conneaut lake.

The Comus club of Wilkinsburg has issued invitations for the third summer dance at Luna park pavilion on Monday evening, August 21.

COVENANTERS GATHER.

Twentieth Annual Convention of Reformed Presbyterian Sabbath Schools Will Be Held Today.

The twentieth annual convention of the Sabbath schools in the Pittsburgh presbytery of the Reformed Presbyterian church will be held today at Rock Point. Seventeen congregations from the Pittsburgh district will attend, and it is expected the biggest convention in the history of the presbytery will gather.

The services are to begin at 1:30 p. m., immediately following lunch. The Rev. H. H. George of College Hill, will preside. A choir of 500 voices will be a feature of the day's exercises. Thomas H. Martin of Allegheny will read a paper on "The Importance of Consecutive Study of the Bible." A. Theodore Smith will speak on "How to Get a Bad Boy Into the Sabbath School," and J. S. Tibby of the Eighth Street church will read a paper on "How to Get Mission Scholars Into the Church." A. McLeod Steel of the New Alexandria church will conduct a question box.

Trains leave Union station at 7 o'clock this morning and Allegheny station five minutes later. Stops will be made at Emsworth, New Brighton, Kenwood, Fetterman, New Galilee and New Castle.

Among the Clubs.

Daughters to Visit Battlefield.

The site of the battle of Lundy's Lane, one of the conflicts of the war of 1812, when the Americans fought their second war with England, will be visited this summer by several of the members of the Dolly Madison chapter, United States Daughters of 1812. The regent of the chapter, Mrs. Robert T. Reineman, has gone to Muskoka Lake, Canada, for August, and before coming home will visit the scene of the battle. The absence of any markers to the valor of the American soldiers who fell there was brought to the attention of the local chapter by Mrs. Samuel P. Griffith a couple of years ago. Mrs. Griffith had visited the locality during an autumn spent in Canada. The movement to erect some kind of monument on the site was started at that time, and, with the co-operation of the Pennsylvania Society, United States Daughters of 1812, the Dolly Madison chapter is ready to place a marker on the site, its action having been delayed by the attitude of the Canadian government toward the project.

At a recent meeting of the chapter Mrs. Minnie Ourey Roberts read a paper discussing the battle of Lundy's Lane, which was fought in July, 1814. Mrs. Roberts said:

"In June, 1814, Gen. Brown, with a force of nearly 5,000 American troops, marched to York, in Canada. Having selected Fort Erie, he hastened on to Chippewa. Here he met a strong force of English under Gen. Riall drawn up in three columns on Chippewa plains. He opened fire on them to such advantage that the English columns broke and withdrew. The English lost 515, the Americans 300.

"On July 14, the Americans, under Brown, camped on the fields of Chippewa. When the American forces marched to Lundy's Lane, a mile below Niagara Falls, the British followed. The two armies camped but three miles apart. The British were reinforced by Drummond with 815 men. The Americans under Scott advanced and deployed in line of battle as soon as the enemy was sighted. Lundy's Lane, at right angles with the river, ran close behind the British position. The American attack was on the British left. The American battalion under Jessup forced a wedge in the rear of the British and let Scott's main column through. The British general, Riall, was taken captive. From 7 until 9 o'clock, when his ammunition was exhausted, Scott's brigade made havoc with the British left and center. The order was then given to Ripley's brigade to capture the British guns. The Twenty-first regiment of American infantry advanced and carried the guns at the point of the bayonet. The guns had as defenders 2,000 British, and for 20 minutes a hand-to-hand encounter occurred, but the British fell back. Their own guns were turned on them from the hilltops. The British reformed under the fire, but in half an hour fell back again. Three times more they were called on unsuccessfully to recapture their guns.

"The battle ceased late at night from sheer exhaustion on both sides. The Americans lost 853 men and the British 878. Both American generals, Scott and Brown, were severely wounded. Next day the Americans retired to Fort Erie, leaving the captured batteries behind."

View Work of Children.

Yesterday was exhibition day at the Fifth and Ninth ward playgrounds and vacation schools of Allegheny, and the rooms and yards were filled with children and visitors. The exercises were similar in the two schools, the program being made up of patriotic songs, drills, games, etc. The two kindergartners and Mrs. Lillian Stotler, kindergarten supervisor, conducted several kindergarten games. Miss Marion Knapp, the game teacher, directed a game of football for the boys and a graceful ring and wedding game for the girls. Miss Louise Logan, and Miss Mary Elere gave piano solos and played for the children to sing at both schools, while Mr. William E. White played two solos on the flute at the Ninth ward. Basketry, art and nature work and millinery were shown at the Fifth ward, and surprise was expressed at the progress made by the children in five short weeks. There were morning sessions only, and on account of a limited treasury some of the teachers could give but half time to any one school. In the Ninth ward basketry was more popular with the larger boys, and they had some good work to show. Sewing was taught by volunteers from the Sewickley valley, who had cause to be proud of their pupils. The art and nature display was of a high order. One boy, Leo Harley, has displayed more than ordinary talent, both for form and color, and this summer in the Ninth ward school may bring to him the chance for further study.

Miss Schoenfeld to Return.

Miss Schoenfeld of Johnstown, formerly head resident of the Columbian Council school in Center avenue, Hetrop Hill, will return to Pittsburgh to take the same position to be made vacant by the retirement of Miss Yetta Baumgarten in October. Miss Baumgarten succeeded Miss Schoenfeld a year ago last July, and since the resignation of the former has remained in June, the board of directors of the school has been anxious to have Miss Schoenfeld return. The latter, however, has not formally accepted the position, but will do so at the meeting of the directors next October, when Miss Baumgarten will retire.

Last Day of School.

This will be the closing day of the summer playgrounds and vacation schools in Allegheny. The special exhibitions to be conducted this morning will be in the Sherman and Irwin avenue schools, Second ward. Yesterday exhibitions were given in the Fifth and Ninth wards. The flower committee also expects to distribute flowers to the children in every school today, and there will be special patriotic exercises in all the playgrounds. Today will conclude five weeks of summer playground and vacation school work on the North Side under the auspices of the joint committee of women's clubs for Allegheny.

Women Workers Take Vacation.

Mrs. A. A. Fergus, the assistant superintendent of the Woods Run Industrial home, left on Tuesday to spend the month of August in the East.

Mrs. William Meerum, vice chairman of the Travelers' club committee in charge of the summer playground and vacation school at the Andrews school, will leave for the northeast with her husband and daughter as soon as the playground season is over.

Fresh Air Outing in Highland.

The Epiphany parish mission yesterday gave an outing in Highland park to over 100 children drawn from the different tenement districts. This is one of a series of Monday outings which the mission is giving during July and August.

AT MT. SEWICKLEY CAMP.

Present Season Prosperous and Outlook for Annual Camp Meeting Good.

The present season at the Mt. Sewickley camp grounds, near Leetsdale, is one of the most prosperous known in years, nearly all the cottages being occupied.

The annual camp meeting will begin on Friday of this week and continue until August 21, the Rev. Z. M. Silbaugh of Pleasant Valley being in charge. The following pastors will have charge of the meetings, in accordance with the following schedule: August 11, the Rev. C. F. Bolinger; August 12, the Rev. J. E. Wright; August 13, the Revs. Joseph Horner, Dr. Thompson and Z. M. Silbaugh; August 14, the Rev. J. B. Risk; August 15, the Rev. G. W. Grannis; August 16, the Rev. J. T. Steffey; August 17, the Rev. Harry Chalfant; August 18, the Rev. C. A. Tushingham; August 19, the Rev. J. M. Pascoe; August 20, the Revs. J. H. Dennison, E. D. Holtz and N. B. Tannehill.

POPE SENDS GREETINGS TO THE PRESIDENT

ROME, Aug. 7.—The pope today received in private audience Edward J. Sullivan, American consul at Trebizond, Turkey, and E. Martin, his secretary. The pope sent his salutations to President Roosevelt. He expressed the most fervent desire that peace would be concluded between Russia and Japan, and said President Roosevelt was entitled to the thanks of the civilized world for his efforts to bring the bloody conflict to a close.

PREPARING FOR RUSH TO UINTAH RESERVATION

Over Two Million Acres Will Be Open to Home-Makers August 28.

[SPECIAL TELEGRAM TO THE GAZETTE.]

PROVO, UTAH, Aug. 7.—On July 15 President Roosevelt signed the proclamation which in effect throws open to settlement the lands of the Uintah Indian reservation in Utah, on August 28 of the present year. The total area of the Uintah reservation is 2,444,000 acres, of which 1,069,160 acres are available for entry.

The mode of procedure for the allotment of these lands will be similar to that in effect at the opening of the Rosebud Indian reservation in 1904, when the Chicago & Northwestern railway carried thousands of settlers into the trans-Missouri country to look for new homes. All applicants to register in person at the United States land office at either Grand Junction, Col.; Vernal, Utah; Price, Utah, or Provo, Utah. The registry books will remain open August 1 to 12.

Any citizen of the United States above the age of 21 years, or the head of a family though younger, widows and deserted wives, may register for a homestead. All applications must positively be made in person by registering at one of the United States land offices named, except in the case of honorably discharged soldiers and sailors, who may register through an agent.

The Uintah reservation lies in the north-central portion of the state of Utah, in Uintah and Wasatch counties. It extends from the Green river on the east of Heber, county seat of Wasatch county, on the west, and to the crest of the great Uintah mountain range on the north, comprising land rich in agricultural and mineral possibilities. A large portion of this tract of land is remarkably fertile. The climate is temperate, with almost perpetual sunshine. The altitude is from 4,000 to 6,000 feet above the sea. In addition to the agricultural lands, there are also large quantities of grazing land on which cattle, sheep and horses may be raised with great success. The lands are watered by the Duchesne and Uintah rivers.

The reservation is reached via the Uintah railway from Mack, Col., on the Denver & Rio Grande railroad to Dragon, Utah, and thence by stage across the White river to Vernal.

The passengers from the east can reach the reservation via the Chicago, Union Pacific & Northwestern line to Denver, and the Denver & Rio Grande or Colorado Midland from Denver. There is daily service from Mack to Dragon.

Brothers Fought the Police.

After a desperate fight Chief of Police Thomas Grogan of McKees Rocks last night arrested John and Jacob Moletwitch. It was necessary to beat the men almost into insensibility before Chief Grogan was arrested. When Chief Grogan, and in trying to recapture him Grogan was forced to severely beat his brother Jacob.

Wonderful Water World.

It is interesting to know that in the Province of Ontario, Canada, there are over 40,000 square miles of inland water stretches, exclusive of the Great Lakes and the River St. Lawrence, and nearly all lying north of Lake Ontario in the "Highlands of Ontario." These Highlands embrace the districts known as "Muskoka," "Lake of Bays," "Maganetawan River," "Lake Nipissing and the French River," "Temagami," "Algonquin Park" and "Kawartha Lakes," and are all reached directly by the lines of the Grand Trunk railway system. Speaking of the "Muskoka Lakes" region, the Cleveland Leader in an article headed "Builders Revel in Wilds of Muskoka," being a report by their special staff representative of an outing which the members of the Builders' Exchange of that city to the number of 200 enjoyed in this lake-land territory, says: "A hundred Chautauquas rolled into one summer resort region would not compare with the "Ontario Highlands." Summer cottages and hotels, pretty camps and hundreds of sailboats and canoes passed in panorama as the steamer 'Medora' steamed past scores of enchanting islands."

A copy of a handsomely illustrated descriptive publication portraying the attractions of this magnificent territory will be sent free to any one applying to C. Robinson, traveling passenger agent, 1 Park building, Pittsburgh, Pa.

CHRISTIAN SCIENCE WINS.

New York Court Dismisses Charge of Manslaughter Brought Against Three Members of Church.

WHITE PLAINS, N. Y., Aug. 7.—(Special.)—A decision of Judge Platt of interest to Christian Scientists was filed in the West Chester county clerk's office today. The court sustains the demurrer of John Quinby, his wife, Georgiana Quinby, of White Plains, and Dr. John C. Lathrop, of Manhattan, all Christian Scientists, to the indictments against them for manslaughter in the second degree. The decision dismisses the case, and no further prosecution will be carried on.

The charge against Mr. and Mrs. Quinby and Dr. Lathrop was that the allowed Esther Quinby, a young daughter of the Quinbys, to die from diphtheria without calling a physician, using Christian Science treatment.

The decision is a victory for the followers of the sect, who contended they had a right under the constitution to care for the ill according to their belief. The three Scientists were indicted by the Westchester grand jury October 31, 1902, and they have been fighting the case in the courts for three years.

CONSTABLE'S THEORY WOULDN'T WORK OUT

Wanted to Hold a Man for Murder Because a Negro Committed Suicide.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WHEELING, W. VA., Aug. 7.—An attempt was made to hold Dr. G. W. Kinsey, a veterinary surgeon, responsible for the murder of Harry Williams, a negro barber of Bethany. Williams came to Wheeling Wednesday, drank freely and went into Kinsey's office. Returning about 9 o'clock the doctor fell over the negro, who grasped him by the throat, and he retaliated with a blow on the head with an instrument which he had in his hand. About 4 o'clock the next morning Williams went to the steamer Jewel at the wharf and jumped into the river.

The theory of the negro constable who worked on the case against Kinsey was that the blow on the head caused insanity and then suicide. While Dr. Kinsey was being committed three physicians conducted an autopsy, finding that death was due to drowning, and the committing magistrate ordered Kinsey released.

Senator Clark Is Recovering.

NEW YORK, Aug. 7.—United States Senator William A. Clark of Montana, who, on July 15, underwent an operation for the removal of a brain abscess, today left his apartments for the first time since the operation. Senator Clark is rapidly regaining his normal condition.

PLEASANTVILLE TERRACE.
The Promising New Suburb of Atlantic City.

One of the most striking real estate successes of the last year is Pleasantville Terrace, a new suburb of Atlantic City. This high tract, formerly the Gen. Doughty estate, comprises one of the most beautiful spots near enough to Atlantic City to be available for suburban building purposes. Hundreds of local investors have already associated themselves with the enterprise realizing the wonderful future ahead of it.

The United States census report shows that Atlantic City, while comparatively one of our smallest cities, has been growing at an enormous rate—in fact, it is the fifth fastest growing city in the union. Land there available for building purposes has grown scarcer each year until now the only logical direction for growth is the main land across the meadows, connected by good train and trolley service.

The Atlantic City Estate Company, who own the Pleasantville Terrace tract, anticipated this condition several years ago by purchasing the Gen. Doughty estate, so the prices they are now asking for lots seem almost ridiculous in the light of the fabulous sums that Atlantic City realty is commanding.

It seems quite reasonable to believe that history will repeat itself in Pleasantville Terrace, just like it did in Atlantic City. It requires no stretching of imagination to believe this, when acquainted with the facts. The entire island of Atlantic City was originally sold for less than $20 an acre, now its real estate assessments amount to considerably over $92,600,000. It is facts of this kind that have induced so many conservative investors to sow their idle dollars at Pleasantville Terrace, with a very good assurance that they will reap large profits.

WEBER'S MILITARY BAND CATCHES ON AT LUNA PARK

Stirring Music Makes Hit With Last Night's Audience at Outdoor Pleasure Resort.

John C. Weber's military band—they call it a "prize" band—stirred up the people at Luna park last night. Weber found at the start that he had his hands full. To stir up a bunch that divides its attention between the chutes, the old shoe, the ball game, "Darkness and Dawn," the scenic railway, the automatic theater and a lot of other stunts, the poor bandmaster saw at the start that he would have to play a little better or a little louder than ever before. Probably Weber did—anyhow he started a stampede his way and they fell over one another to climb into the seats.

"What the h——!" queried Weber as he placed the title of a new tune on the rack. The crowd stood up and cheered and some made footprints on the seats. An encore was given and then another was called for. Pittsburghers like military bands and are not slow to indicate their appreciation.

Weber has a fine band and the judgment of the crowd was about right. His soloist is Miss Blanche Mehaffey, a young soprano, who sings with rare sweetness. Her "Lolita" waltz song stirred them up and as an encore Miss Mehaffey sang "In the Shade of the Old Apple Tree." This seemed to please the crowd as much as if they had never heard it before.

In the open-air circus the five Bellaizer sisters made a hit in their gymnastic stunts. The girls are pretty and beside this they have a whole lot of grace. It is their first trip west.

Woodruff for Mayor of New York.

NEW YORK, Aug. 7.—(Special.)—The Hon. Timothy L. Woodruff of Brooklyn, is the latest man talked about at Republican state headquarters for the party nomination for mayor. He is now traveling in Europe, but is expected home before the end of the month. His friends say that as a candidate for mayor he would carry the borough of Brooklyn by a large majority and insure the election of the Republican local candidates.

MORROW CALLS MEETING.

Notifies Members of Finance Committee to Meet—Acts Contrary to City Clerks.

The finance committee of councils is called to meet this afternoon, but there will hardly be a quorum. Councils have adjourned for the summer, but Assistant Controller Morrow, who acts as clerk of the committee, continues to call the committee regularly every month notwithstanding.

There is no business of importance for the committee to transact. A meeting of councils will not be held until the second Monday of September unless a special meeting is called, and none is expected. The rules of councils provide that no regular meetings of councils shall be held in July and August, and the city clerks, who fail to issue any notices of meetings of either councils or committees in those two months, claim that Mr. Morrow is in error in calling the finance committee.

CHAUTAUQUA

CHAUTAUQUA, N. Y., Aug. 7.—(Special.)—At the annual meeting of the Chautauqua circle of the D. A. R.'s an election of officers was held in which Mrs. Robert Alexander of Philadelphia was elected president; Miss Anna Maxwell Jones, Saratoga, N. Y., vice president; Miss Alberta Rice of Pittsburgh, recording secretary; Mrs. Charles P. Knowlton, Freeport, Ill., corresponding secretary; Mrs. Lillian Hunter of Tidioute, Pa., treasurer, and Mrs. Alice Bradford Wiles of Chicago, historian. Mrs. M. B. Tucker of Louisville, Ky., the president during the first year, would not permit her name to be used again for the office, desiring the honor to go to someone else.

Bishop Vincent was the speaker at the Woman's club, and discussed the new evangelism. Prof. S. C. Schmucker talked on the question "Is Nature Study a Failure?"

Dr. J. Wilbur Chapman led the morning's devotional hour and also led the Ministerial conference.

Dr. Charles Cuthbert Hall's lecture was on the vitalizing of religious thinking, and Dr. J. M. Buckley's on "Peter the Great and His Successors."

Mr. William H. Sherwood and Mr. Sol Marcosen gave the fifth recital in their artistic series of seven at Higgins hall. It was the last entertainment to be given in the hall this week until after President Roosevelt's visit, as it is in that place the breakfast for the distinguished visitor and 125 guests will be served.

An interesting ball game, well attended by the male portion of visitors, was played between the Chautauqua Athletic club and Point Chautauqua, with score of 5 to 1 in favor of the former.

Prof. S. H. Clark's reading hours are always well attended, but his choice of subject today probably attracted larger audience than usual. He gave his first reading from the Scarlet Letter—the market place.

Mrs. B. S. Cogswell, president of the N. P. W. C. T. U. training home for friendless girls in Cleveland, O., gave a brief history of her work and its many successes.

Dr. Jesse Hurlbut attracted the Bible students in the early evening by giving a series of Bible stories for both teachers and scholars.

The fourth oratorio of the season, Mendelssohn's "Elijah," was given this evening by the soloists, Miss Frieda Stender, soprano; Mrs. Harriet Foster, contralto; Dr. Hugh Schenessler, bass, and Mr. Everard Calthrop, tenor, and by the Chautauqua choir.

Mr. La Follette Will Go to Senate.

MADISON, WIS., Aug. 7.—It is announced today unofficially, but from an authoritative source that Gov. LaFollette will relinquish the office of governor early in September, and go to Washington as United States senator in October.

IRON AND STEEL STOCKS STRONG AND HIGHER

Sharp Advances Scored by High Grade Railroad Issues—Crucible Steel and Natural Gas Shares Higher on the Local Board.

By JOHN O. BAGLIN, Financial Editor.

The New York stock market made up in strength what it lacked in activity yesterday. The London market remained closed, and there were no transactions here for foreign account. In the early dealings there was some hesitation, but this soon gave way to confidence and a steadily rising market, which closed at or near the highest of the day. The sales slightly exceeded 570,000 shares.

For a time the feature was the concentration of dealings in a few specialties, but later in the day the market became broader. United States Steel issues were conspicuous for activity and strength, and both the stocks and the bonds reached a new high level on this movement. The preferred was quoted ex-dividend of 1¾ per cent. It opened firm at 103¾ and advanced steadily to 104, which counting the dividend was equivalent to 105¾, a new high record. The close showed ⅝ per cent of the dividend recovered. The common stock advanced to and closed at 36⅝, a gain of 1⅜ per cent, and the bonds advanced to 97⅝, closing at the best, which is within a fraction of the highest ever quoted. The minor iron and steel issues were all strong, under the leadership of Sloss-Sheffield and Republic preferred. The first named closed at an advance of 4¼ per cent and Republic preferred at an advance of 3¼ per cent. Tennessee Coal and Iron closed 1⅜ higher. These are the highest prices quoted since last spring, when there was a boom in this group on a report of a consolidation. Pressed Steel Car closed 1¼ higher and Colorado Fuel and Iron ¾ higher.

The feature of the railroad list was the strength of the high grade issues. Lackawanna advanced to 440, Jersey Central to 212, Delaware & Hudson to 199¾, Northern Pacific to 212 and Canadian Pacific to 166½, all new high prices for the year. Reading was conspicuously strong, advancing to 108, which is within ¾ of the high price of the year, and, taking into account the dividend, is a new high record. Northwestern advanced to 221 and closed with a net gain of 3 per cent.

Late in the afternoon there was heavy buying of New York Central which carried the price up to 149¼, at which the stock closed, an advance of 2¼ per cent over Saturday's close. This movement, taken in connection with the rise in Northwestern, revived the old rumor, current last spring, of a merger of these two systems with the Union Pacific, forming an ocean-to-ocean line. Union Pacific was steady to firm, but closed only ¼ higher for the day. St. Paul closed ⅞ higher and Atchison ⅞ higher.

The Pennsylvania group was moderately active, but the net gains were comparatively small. The southern group of stocks was strong, Louisville & Nashville closing ¾ higher and Atlantic Coast Line 3 per cent higher. The tractions were steady to firm.

The only laggards in the market were Smelting common and Amalgamated Copper. Smelting scored a net gain last week of about 8 per cent, and a reaction on profit-taking was natural, but the failure of Amalgamated Copper to share in the general strength, particularly in view of the buoyancy of the copper market, is puzzling to the street.

The money market remained easy, call loans closing at 2 per cent. Commodity markets were active and irregular. Wheat and corn closed lower, being depressed by the splendid crop weather. Cotton rallied and closed firm.

The tone of the local stock market was at times almost buoyant, particularly for the steel and natural gas issues. The rise in United States Steel common was in line with the advance in the east, and the movement in Crucible common and preferred was sympathetic. Crucible common rallied to 13, the highest for weeks, but reacted to 12¾ at the close, a gain of ⅞ for the day. The preferred rallied to 64¾ and closed at 64½. Both these issues are relatively lower than similar stocks in the New York market, and they would doubtless be selling much higher but for the recent unfavorable developments in other parts of the list, which have had a depressing effect upon the whole market. Sentiment, however, is gradually recovering, and there is a feeling that the whole local market will improve if the strength of the eastern market is maintained.

Manufacturers Light and Heat was the strongest member of its group, advancing to and closing at 38¼. Pittsburgh Oil and Gas advanced a dollar a share to 56, and Philadelphia Company common held firm at 47.

The coal stocks were dull but firm. Pittsburgh coal common sold at 14⅜, an advance of ¼, and the preferred at 54, an advance of ½. There were no transactions in River Coal preferred.

National Fireproofing preferred and Independent Brewing common closed a shade lower. Pittsburgh Brewing common was steady and unchanged at 27, while the preferred rallied to 48. The regular dividends on these stocks were declared during the day. There were no transactions in any of the Westinghouse issues, which were steady to firm. In the banking list Commonwealth Trust sold at 200, an advance of 10 points over the last previous sale.

Copper and Smelting were laggards in the upward movement.

Sales included 568,200 shares stock and $4,182,000 bonds.

NOTES AND COMMENT.

The local stock market yesterday made further progress in getting away from the depressing influence of recent dividend reductions and suspensions. Crucible Steel was the leader, the common advancing to 13 and the preferred to 64¾, the highest price since last spring, when the iron and steel stocks in the New York market made their highest prices. Crucible Steel is still 10 to 15 points below the parity of Republic Iron and Steel common and preferred stocks, and this whole group naturally sympathizes with the course of United States Steel. Wall street is very bullish on United States Steel, and if the latter continues to rise a higher market for Crucible seems probable. The natural gas stocks were also firmer, while Pittsburgh Coal issues were extremely dull, but steady. There was nothing doing in Westinghouse stocks, but these remained steady to firm. At the close of the market the whole list displayed a firm tone, giving indications of further improvement today.

The Pittsburgh Brewing directors declared the regular quarterly dividends of 1¾ per cent on the preferred and 1¼ per cent on the common stock, payable August 19 to stock of record August 11. The common stock was firm at 27 and the preferred advanced to 48.

There was a better demand for local bank and trust company stocks yesterday. Commonwealth Trust advanced 10 points to 200 and Pittsburgh Trust advanced to 445 bid. A small lot of Safe Deposit and Trust sold at 400, which was unchanged from the last previous sale.

The cashier of one of the largest downtown local banks said yesterday: "I think we will have a firmer money market here within the next few weeks. Just now there are considerable offerings of money by out-of-town country banks. These offerings are being absorbed, and there is some increase in the demand. There is every indication of a continuance of commercial and industrial activity, and this means greater activity in the money market."

Marsden sold at 4¼ and advanced to 4⅜ bid at the close.

The advance in North Butte continues, the stock closing at 34½ bid, 35 asked. Pittsburgh is largely interested in this stock and all the news on it is bullish. Oriental and Mashate sold at 50 cents a share and was in demand at that price bid. Golden Anchor recovered to 80 cents bid and was offered at 85 cents.

Private advices were received in Pittsburgh yesterday that the work in changing the Tonopah railroad from narrow to broad gauge will be completed to Mound House, Nev., to a connection with the Southern Pacific by the 25th of the month. Orders will greatly facilitate shipments of ore by Tonopah Extension, which will be enabled to double its output.

Directors of the Philadelphia Company have declared the regular semi-annual dividend of 2½ per cent on the preferred stock, payable September 1 to stock of record August 16.

Diamond Match directors have declared the regular quarterly dividend of 2½ per cent, payable September 15 to stock of record August 31.

United States Steel sinking fund bonds were very active in the New York market yesterday, sales footing up $1,921,000 at prices ranging from 96½ to 97⅛. The highest price ever quoted on these bonds was 98½, recorded last April.

Mr. James Carothers will leave tonight for a trip to the northwest, which will include a visit to the Portland fair.

A New York stock exchange house, which is not in sympathy with the bull market, sent this message to a local correspondent after the close: "The afternoon trading was of the same sort as that during the morning, the plainest kind of manipulation by operators who have been in control of the market for some weeks. United States Steel shares moved up a little further and Republic Steel reached the top price of this movement. The dealers also ruled strong, with Reading and Erie features. Some of the high-priced grangers were run up higher. All this manipulation had the appearance of being designed to help liquidate holdings in the regular leaders, such as Union Pacific, St. Paul, Southern Pacific, Pennsylvania and Baltimore & Ohio. They could not get the regular active list up on their merits, so they tried the next best thing—to feed them out while they made specialties strong. Some day the market will come to a standstill from lack of steam to keep the motive power going. There will be a rush to sell, with nobody wanting to buy. This is quite likely to occur when we get a taste of firm money, which is not far off. Meanwhile we may get two or three weeks of manipulation of specialties."

Gross earnings of Louisville & Nashville for July increased $76,972.

Gross earnings of Missouri Pacific for July increased $147,695. Missouri, Kansas & Texas reports an increase of $230,234 for the month and Texas Pacific an increase of $43,151.

Gross earnings of Southern Railway for July increased $235,905.

A special meeting of the stockholders of the American Steel Foundries Company has been called for September 6 at 15 Exchange place, Jersey City, to act on the resolution authorizing the issue of $8,000,000 bonds to be secured by a mortgage on the plants of the Simplex Railway Appliance Company, and about 50 per cent of the capital stock of the Commonwealth Steel Company of New Jersey, and authorizing the offer to the preferred shareholders of $2,500,000 of such bonds at 80, the balance of $2,500,000 of bonds not to be issued at the present time.

Pressed Steel Car securities have been reflecting the great improvement in the company's earnings. The gross business, which in 1904 amounted to about $1,500,000, will from present indications amount to between $2,000,000 and $2,000,000 for the current year.

C. D. Warren, president of the Lake Superior Corporation, discussing the prospects of the company after a trip to the works, says that they are turning out 500 tons of steel rails daily and have contracts booked ahead for 75,000 tons, sufficient to keep the mills going to their full capacity until January 1, 1906.

The news of the day was pretty favorable in its general tenor and covered crop conditions and prospects, railroad earnings and traffic, demand for anthracite, large orders for all classes of steel products, and sustained ease in the money market. Reports were specific of the very large orders being placed for iron and steel products, some of the mills refusing, it was said, to consider new business except for shipment late in the year or next year as they are already overcrowded with work. The iron and steel industrials gave evidence of organized support and moved up sharply, the specialty parts having embarked in a campaign for higher prices. The United States Steel stocks did not make the widest movement, but their inclusion in the movement had an important sentimental influence on the general list.

"There is no movement on foot which is likely to culminate in the near future in any merger of the Pennsylvania properties, the Northern Central, the Philadelphia & Erie, the Allegheny Valley and the Western New York & Pennsylvania. It is well known that a scheme has been in contemplation to merge the three latter or the two latter roads, but it is apparently no further advanced now than it was a year ago. No doubt at some time there will be a closer union of these properties, or some of them, but nothing will be done at once."—Philadelphia News Bureau.

The placing of all three classes of Central of Georgia income bonds on the interest-bearing list was regarded as highly significant of the expansion of earning power of railroad properties in that territory.

Railroad traffic officials were quite unanimous in reporting a volume of traffic which was fast absorbing the greatly expanded equipment facilities which have been added by all the great railroad systems in the last few months. Grain has commenced to move freely, except for some backwardness in the corn movement, and orders for all grades of merchandise are reported to be on a large scale, based on the growing confidence in the crop outlook.

At the general meeting of the British General Electric Company, Limited, the chairman said: We have done more business than in the previous year, but competition has reduced profits—evidence felt by almost every manufacturer in this country. We have been able to place to depreciation £77,400, or £700 more than last year, and have put a good sum to reserve, choosing to reduce interest on ordinary shares rather than diminish the amount for reserve. Income from investments slightly counteracts the decrease of profits from trade account. We have acquired the business of our former agent at Paris, Lucien Rivay, and turned it into a limited company under the name of the General Electric Co. of France. Our market in France would be considerably increased if our terms were not so high. At home we have received a fair amount of large orders. In other manufactures, such as telephones, bells, light fixtures, etc., output has increased, but prices are lower and competition acute. Foreign manufacturers, protected by tariff at home, are doing certain lines at less than cost, and this compels us to believe that England's industrial welfare demands a policy of protection. A dividend was declared at the rate of 5 per cent for the year.

Mr. Walter K. Hemler has been elected secretary and treasurer of the Treasury Trust Company. Mr. Hemler was formerly with the North American Savings Company, having been with that company since its organization.

MARKET MAKES GAINS IN CERTAIN ISSUES

Higher Prices Recorded, However, Were Due to Manipulators, and Not to the Public.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 7.—The bright idea (Sunday) morning news, displayed prominently yesterday, and gains were made in certain issues which are prominent in the public eye. The higher prices recorded were not due to the entrance of a confident public in the stock market, nor were these gains established wholly as a result of professional market manipulation. It was true the trading element contributed a great deal to yesterday's business on the exchange, but the impelling show of strength emanated mainly from the buying in the steel corporation shares. This buying was considered excellent.

In other quarters the market was steel, with leasing and professionals. Naturally motor steel shares were favorably affected, and Crucible and Republic shares of the high grade trunk line stocks. The grangers were firm and deposed to advance on the fruit and weather news. The anthracite carrier became active. The main feature of the market, however, that, despite the prevailing high level of prices, sellers are less numerous than buyers, was again effective.

London's stock exchange was closed for the August bank holiday, and the usual impetus given international issues was lacking. Crops were irregularly distributed, but the continued absorption of steel issues exerted a sentimental effect. Such news as developed was mainly favorable. Wheat was, on reports of great harvesting and ripening weather and a freer movement of the winter wheat to market. Reports of the western traffic managers from the distributing centers continued most promising, and the railroad earnings were fair.

Sentiment was also favorably influenced by the decision of the Central of Georgia management in paying the January and July dividends and thus ignore "bonds." Whether this weakness of prosperity was responsible for the movement in the shares of southern roads did not appear, but it seemed patent that the professional element was much more interested in these issues. It was true the buying was done by the yellow fever epidemic and the known shortage of the cotton crop. Great fears are reported an absence of high-class bonds so large has been the demand. Investors are now shifting into the convertibles and mortgages, hence the activity in the bond list of the exchange.

BIG SHERIFF'S SALE DOWNTOWN

W. P. Harlos Bids Off Dr. McKenzie Property at Penn and Barkers Alley.

It is seldom that a downtown property is disposed of at sheriff's sale, but this happened yesterday when W. P. Harlos bid off the property of Dr. R. H. M. McKenzie at the southeast corner of Penn avenue and Baker's alley for $70,100. Some surprise was manifest that a higher bid was not offered as the lot is one of the most desirable in that part of town. It measures twelve feet and is improved with a two-story brick house with two store rooms and offices. In February, 1904, Dr. McKenzie bought the property from Samuel Hamilton. It carried at one time a mortgage of over $100,000, and it is said that a large mortgage, which is assumed by the purchaser, swells the total of this deal very materially. The location of the lot, almost across the street from the Second Presbyterian church corner, which is pretty certain to be improved within a year, and within a square of Sixth street, makes it a very desirable corner for a business block, and the improvements are such as to cut very little figure in the deal.

Dr. McKenzie's residence in North avenue, Allegheny, which was to have been sold yesterday also, was not bid off owing to the fact that a stay of judgment was secured. This property is just west of Palo Alto street and consists of a 12-room brick house on 24x170 feet, extending back to Ellsworth street. It is valued at about $12,000 or $14,000.

Buys Frontage for $50,000.

William Anderson has purchased from E. M. Brickell and John B. Bader 118 lots in the Oakhurst plan in the Twenty-first ward, for $50,000. The lots have a total frontage of 1,816 feet in Spencer street, 71 feet in Sterrett street, 1,648 feet in an alley and have an average depth of 510 feet. The plan was laid out in August, 1903, and the streets have been partly improved. The sites are well adapted for houses to cost from $2,000 to $3,500, and it is said that the buyer intends to erect a large number of such dwellings in the near future.

Through the Commonwealth Real Estate Company E. G. Mooney has sold to Harry Kaiser, 1014-1018 Vickroy street, near Chestnut street, for $12,500. The lot is 62x100 feet, and is improved with a three-story brick building in front. This is well rented. The owner proposes to build two or more small houses on the rear of the lot soon.

James B. Graham has obtained title to 120x130 feet of vacant frontage in Sheridan avenue near Wellesly avenue, which he bought of Hicks & Sons from Isaac and Henry Kaufmann through the firm of Baldridge, Watson & Co. for $12,000. The lot will be improved with two good houses.

Since the board of education in Wilkinsburg started out to hunt a site property values there have gone up with a vengeance. It was reported yesterday that the board had practically decided on a site, and no information as to the exact location could be secured, and the purchase was doubted by many because the members were in disgust at the prices asked for some sites considered. One of these is 174x134 feet at Ross and Center streets for which the price asked was $37,000. Another is 66x120 feet at the northwest corner of South avenue and Center street for which the Lutheran church asked $25,000. A third site which has been presented is 165x159 feet facing in South avenue near Center street, and extending through to Ross street. It is said this lot was optioned for about $80,000. The board is looking for a site to contain from one-half to three-fourths of an acre, and is said to be willing to spend $20,000 for it.

The committee appointed by the Tree of Life congregation is still undecided as to a site although four different lots are being considered this week. A member of the committee said yesterday that the selection would probably be of some lot in the East End, or at least as far out as Bellefield.

Largely a Cash Deal.

It develops that the deal for the Eberhardt holdings at 106-110 Wood street, which was published in The Gazette Sunday, was more nearly on a cash basis than was generally supposed. The property was put into the deal at $305,000. Isaac Kaufmann assumed a mortgage of $125,000 which runs at 4.5 per cent until next December. Mr. Kaufmann will pay off the mortgage at once so that this part of the consideration with the $75,000 cash paid makes $200,000 practically cash. The Max Klein house at 511 Beech avenue, Allegheny, was taken into the trade at $25,000 instead of $40,000 as first reported, and the Locust street flats at $30,000. C. H. McAuley handled the deal.

The "Construction News" of Chicago furnishes some interesting statistics regarding building in 29 of the principal cities of the country for the month of July. There were 6,730 buildings authorized, totalling in cost $34,614,565 as compared with 5,546 buildings estimated to cost $22,238,287 in July, 1904. This gain equals 55 per cent, convincing proof of the general prosperity that prevails. Seventeen of the 29 cities show gains in the following order: Omaha, 484 per cent; Louisville, 166 per cent; St. Louis, 129 per cent; New York, 109 per cent; Allegheny, 89 per cent; Cleveland, 41 per cent; Detroit, 36 per cent. Other cities had gains ranging from 29 down to 18 per cent.

More Small Realty Companies.

A marked feature of the local real estate situation the past year is in the number of small real estate companies that have sprung up to deal in property, not on a commission basis, but for themselves. Most of these companies have been prosperous and several have made from 15 to 25 per cent in their capital. Two more such concerns have just been announced. One is the Home Site Land Company which has been formed by James G. Morris, James E. Jones and James E. Howard. The company has applied for a charter and will deal in real estate and build houses in Beltzhoover and Montooth.

The other is the McMahan Land Company. Its members are Alexander and Thomas McMahan and Samuel S. Robertson, and these men already have considerable property to handle.

A deal for a large property on the bump has just fallen through because of an easement in the form of a privilege to build a light court in the rear of the building at any time. The easement holds good for ten years more, and was discovered in examining the title. Ordinarily the price paid for the property would have been satisfactory to all concerned, but with this burden to take on the buyer at once withdrew from the deal.

BUTTER MAKES SHARP RISE IN ALL GRADES

Scarcity in Country Districts Forces Prices Up in the Local Market.

The only change in local market prices of any moment yesterday was in butter. The price moved up a cent a pound on all grades. The advance was not unexpected, as there has been a strong market and a decided scarcity of butter for the last two weeks. In the country districts there is almost a butter famine, the harvesting season demanding more than the farmers can produce for themselves. Added to this is the habit of thrifty farmers storing butter during the summer months for winter selling. The result is, real country butter is about out of the market and there is a heavier demand for the creamery stock. Cream is not plentiful either, as pastures are failing rapidly. It is generally believed that bottom has been reached on butter prices for this season.

Eggs are still firm at 20@21c for selected stock with prospects favoring a still further advance. On vegetables and fruit and produce generally the same conditions exist as were apparent last week. There is plenty of home-raised products in market and prices are about down to summer figures on everything.

HAY AND GRAIN.

Receipts yesterday were: Pennsylvania, 47 cars oats, 8 cars corn, 22 cars hay, 3 cars straw, 1 car feed, 3 cars rye; Baltimore & Ohio, 9 cars oats, 8 cars hay, 1 car feed, 1 car straw; Pittsburgh & Lake Erie, 6 cars oats, 1 car corn, 22 cars hay, 1 car rye.

The hay and grain market continues steady on corn and hay. Receipts of oats are heavy, but mostly of new ones. Hay is in good demand, not much new stock arriving yet.

Visible Supply of Grain.

NEW YORK, Aug. 7.—The visible supply of grain, saturday, August 5, as compiled by the New York produce exchange, is as follows: Wheat, 24,757,000 bushels, decrease 1,015,000; corn, 2,892,000 bushels, decrease 373,000; oats, 7,966,000 bushels, increase 654,000; rye, 744,000 bushels, decrease 21,000; barley, 2,292,000 bushels, increase 127,000.

Seven Wells in New Development Are Producing 300 Barrels Daily

On the Ohio side in the new development on Wells creek, Jefferson county, Freudenberger & Sinclair have the distinction of completing the first duster in that development. This is this company's second test on the Vaughn heirs' farm and is located a little west of developments. In the same district the Castner Bros. have put their No. 6 on the W. P. Black farm to pumping, and it is producing 45 barrels a day. The Casterner Bros.' seven wells on the Black farm have a production close to 300 barrels a day. North of the development E. H. Jennings & Bros. are drilling an important test on the Vaughn heirs' farm.

In the Plum Run district, Harrison county, W. C. Kennedy & Co. have completed their No. 7 on the Jane L. Clark farm and have a show for a five-barrel pumper. In the Jewett field in the same county the Ohio Oil Company has completed its No. 5 on the W. P. Hanna farm and has a show for a light pumper, not good for more than three barrels a day. In the Wolf Creek district, in Washington county, the Pure Oil Producing Company has completed Nos. 5 and 6 on the A. W. Breckenridge farm. No. 6 is dry and No. 6 is good for ten barrels a day. In the same district Cisler & Peddinghaus have completed No. 7 on the Sadie Spears farm and has a show for a producer. J. L. Lorenze & Co. have drilled in their No. 13 on the Lydia M. Palmer farm and have a show for a good producer. R. D. Crawford is drilling No. 47 on the John Lightner farm and is due in the sand.

In the Burgettstown district, Washington county, Pa., R. G. Gillespie has completed No. 3 on the G. M. Cameron farm and has a 10-barrel pumper. R. G. Gillespie has also completed No. 14 on the Buchanon farm and has a show for a 10-barrel pumper.

In the Fish Camp Run, Hardin district, Harrison county, the Philadelphia Company has drilled its test on the S. W. Swisher farm through the fifth sand and found nothing in that formation. A little gas was developed in the Gordon and stray. On Long run, Ten-Mile district, Schauffner Bros. are due in the sand at their test on the Maloney heirs' farm. In the Wilson district, near the county the South Penn Oil Company has drilled its test on the Sprout Wood field farm 50 feet into the stray and has developed a light gas pressure. On Churchs Fork, Church district, Wetzel county, the Manufacturers' Light and Heat Company is due in the sand at its test on the W. E. Maple farm. On Knob Fork, Center district, the Carnegie Natural Gas Company is due in the sand at a test on the L. A. Barnard farm.

In the Elizabeth, Wirt county, Hickman & Whan have drilled their No. 20 on the A. R. Morrow farm through the Cow Run sand and have a show for a 10-barrel producer. In the Bens Run district, Pleasants county, S. H. Neely has drilled his test on the John Beegle farm through the Cow Run sand and has a duster. In the Wick district, Tyler county, the Carter Oil Company's No. 4 H. C. Watson and No. 2 Mathias Wessel are holding up at 55 and 75 barrels, respectively. The Melrose Oil and Gas Company's No. 13 on the T. H. Jewell farm is still producing 70 barrels a day.

Reports Concerning Spring-Sown Wheat Have Weakening Effect on Prices.

[By Associated Press to The Gazette.]

CHICAGO, Aug. 7.—Glowing reports concerning spring sown wheat today had a weakening effect on prices. At the close wheat for September delivery was down ½@¾c. Corn is unchanged. Oats are off ½@½c. Provisions show a gain of 7½ to 32½c.

Bearish sentiment was dominant in the wheat pit throughout the entire session. Notwithstanding a decrease of 2,325,000 bushels in the amount of wheat on passage, the market opened weak, with September down ½@¾c, at 83½@83¾c. The principal factor responsible for the depression was clear weather generally throughout the northwest. Some rain had fallen in Minnesota, but practically no precipitation had been recorded in the Dakotas. Moreover, the weather bureau forecasted a continuance of favorable conditions during the next 24 hours. News from the wheat fields of the northwest was of a most reassuring character for the bears. Reports from Minneapolis indicated that the crop was maturing rapidly in the northern districts, while in the southern sections harvesting was making great headway. A sharp decline at Minneapolis added emphasis to the dispatches regarding crops. Further bearish gossip was furnished by reports from the southwest telling of increased deliveries by farmers and of lower prices for cash wheat at Kansas City. Practically nothing of importance was found in the day's news to give encouragement to bulls. Mill traders and small holders had moderate offerings during the greater part of the session. Selling was liberal during the first hour, and as a result the price of September dropped to 82¾c. Trading was quiet thereafter until the last hour, when a steadier tone developed on moderate covering by shorts. The market closed easy, with September at 83¼@83¾c. Clearances of wheat and flour were equal to 21,000 bushels. The visible supply increased 391,000 bushels. Primary receipts were 1,422,000 bushels, compared with 1,353,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 491 cars, against 138 cars last week and 352 cars a year ago.

Excellent weather for the growing corn crop was reflected in a weak market for the cereal. The country took on a generous yield, it is asserted, is becoming more certain from day to day. One authority claimed that every day that goes by without damage to the crop means $10,000,000 to the farmers of the middle west. Receipts were a trifle in excess of the amount estimated for today, and that fact induced some selling. The market received a little better support late in the day, and as a result the close was quite steady. September opened ¼@¾c lower, at 52¾@53c, sold between 52¼@53c, and closed at 53c. Local receipts were 211 cars, with 78 of contract grade.

Under heavy general selling the oats market was decidedly weak. All the news of the day seemed to favor

PASSENGER RATE WAR IS SETTLED

Old Basis of Fares Between New York and Chicago Effective on August 20.

RECORD RUN ON PANHANDLE

The passenger rate war between the New York-Chicago railroads is at an end. The Gazette received information from an authentic source yesterday that the settlement has been made and that, without a reasonable doubt, the old Chicago rate sheet will be again adopted and placed in force August 20. This is the rate sheet that was in force May 1, 1905, or before the Michigan Central was given its differential by the arbitrators in that case some months ago. What the exact terms of settlement were could not be learned, further than that the old rate sheet is to be adopted.

This ends what was feared would be the greatest war on passenger rates ever known in American railroading. The war started about a month ago when the Erie and Grand Trunk roads announced through their tariffs filed with the Interstate commerce commission that their rates would be $2 lower than the rate named by the Michigan Central. Then the battle began and the other differential lines followed, this action being taken up again by the Grand Trunk and then again by some of the other lines. It is a credit, according to the opinion of the higher railroad officers, to American railroad managers that this matter has been adjusted amicably. Incidentally, The Gazette was the first newspaper in America to give the public the correct information as to the method by which this matter was to be taken up for settlement. It was stated from an official source through this column on July 29 that F. C. Donald, commissioner of the Central Passenger association, had been delegated by the executive officials in charge of traffic on the lines interested to preside at a peace meeting to be held by these officers and the heads of the passenger departments.

In reducing the rates the roads are compelled to give notice at the headquarters of the interstate commerce commission in Washington three days before such reduction is to be made. In advancing the rates the roads are compelled to give notice of the advancement 10 days prior to its taking effect. The notices in each case must consist of the rate sheet to be put into force.

The settlement of the New York-Chicago rate war also includes a settlement of the rates to Boston, Albany, Buffalo and other points that were affected by the reductions.

The Michigan Central agrees to forego its right to any differential to Buffalo and also not to apply any differential rate out of Chicago through tickets to New York over the New York Central lines east of Buffalo. It retains the right of differential rates out of Chicago over other than New York Central lines east of Buffalo, and also of using the differential basis by all lines east of Buffalo on all tickets sold from points west of Chicago.

Panhandle Extends Double Track.

Extensive work is being done by the Pennsylvania lines west to afford better track facilities for its lines. This is particularly noticeable on the Indianapolis division of the Southwest system, where work is under way for extending the second main line track from Columbus to Bradford. It is at the latter place that the Lonansport division joins the Indianapolis division, and the second track is urgently needed to carry the heavy traffic from Columbus to the junction point. The Panhandle now has a double-track line for a distance of 32 miles west of Columbus, and this is as fine a double-track line as can be seen in the middle west. The road is being practically rebuilt to provide such a perfect line as may be possible. From just east of Woodstock to Urbana, a distance of 15 miles, there are several construction gangs at work either excavating or filling to reduce curves and grades on the line. Some work is also being done between Urbana and Piqua, while between Piqua and Bradford a new double-track main line is being built to eliminate a heavy curve and grade through Covington; this new line will be about six miles in length. The company is building an elevated roadway through Covington and Woodstock. The grading and excavating work east of Urbana is heavy, at some points being 30 feet deep.

Good Run on Panhandle.

A fast run was made by the second section of the St. Louis special, No. 29, Sunday night, the 193 miles being made in three hours and 36 minutes, or 15 minutes better than the fast run of the New York special, No. 16, from Columbus to Pittsburgh last week. The section Sunday night consisted of the mail cars of the St. Louis special, which cars arrived late from the east. The section left Pittsburgh at 7:03 o'clock and arrived in Columbus at 10:39. There was but one stop at Dennison for a change of engines, and some spurts were made when the train flew over the rails at a rate of 90 miles an hour. The excellent trackage and solid roadbed of the Panhandle makes such speed easily possible in the use of the fast engines. The train was in charge of Conductor Charles G. Bigham. Engineman George Bebout, at the throttle of engine No. 8002, hauled the train from Pittsburgh to Dennison, and Engineman Richard S. Johnson on engine No. 8052, took the train from Dennison to Columbus. The run is second best on record.

B. & O. Receiving New Engines.

The Baltimore & Ohio has received the first installment of its order for 240 new freight engines. This order was placed with the American Locomotive Company last spring. It is expected that the deliveries will continue regularly for the next two months until all of the engines have been placed in service on the Baltimore & Ohio. Several of these engines will be given to the Pittsburgh division, although the exact number is not yet announced. The locomotives are being constructed at the several works of the American Locomotive Company. They are of the latest improved Baltimore & Ohio type for its freight service.

Building New B. & O. Bridges.

Contracts have just been awarded by the engineering department of the Baltimore & Ohio railroad for four new bridges to be built on the Pittsburgh & Western branch of the Pittsburgh division. The successful bidder was the Youngstown Construction Company. The bridges will be of steel construction, the erection of which will be the principal work of the contractor. The railroad company has completed the masonry for these bridges, which are located at Wildwood, Bryant, Mt. Royal and Sharpsburg. They are to replace old bridges that have given much trouble in flood times in the past few years.

On Time 50 Consecutive Days.

Charles Watts, general superintendent of passenger transportation of the Pennsylvania lines west, said last evening that the Pennsylvania special had been on time Sunday and yesterday in arriving at destination, thus making the record of being on time for 50 consecutive days. Notice of the splendid record of 48 consecutive arrivals at destination on time was made in The Gazette Sunday. Now the officers and employes will endeavor to duplicate this record and establish the new one of 100 times on time.

Railroad Notes.

The Newburg section of the track elevation work of the Pennsylvania lines at Cleveland has been awarded to Williams Bros. & Morse of Cleveland.

W. J. Bahner of the advertising department of the Pennsylvania lines west, is expected to resume his duties after a pleasant vacation at his home at Coshocton.

Col. J. M. Schoonmaker, vice president and general manager of the Pittsburgh & Lake Erie, is expected to arrive here this morning from a sojourn at his summer home at Spring Lake, N. J.

C. W. Bennett, maintenance of way inspector of the southwest system of the Pennsylvania lines west, who has been in ill health for some time, was reported yesterday to be improving. He is able to be about his home at Urbana, O.

The Reformed Presbyterian church people of Pittsburgh, New Castle and New Galilee will be carried by the Pennsylvania lines to Rock Point for the annual outing today. The lines west will haul about 4,000 people to Rock Point tomorrow from Washington, Pa., for the annual outing of the business men's association of that city.

Among local railroaders on vacation are: H. R. Hamlin, chief clerk to General Superintendent Robert Pitney of the Baltimore & Ohio, who is in Atlantic City; E. E. Connelly, chief clerk to Vice President J. M. Schoonmaker of the Pittsburgh & Lake Erie, who is taking a jaunt to Colorado points; E. E. Dean, stenographer in the office of General Superintendent of Passenger Transportation Charles Watts, of the Pennsylvania lines, who is enjoying himself at Wooster, O., and A. S. Barr of the assistant station master's office at the Union station, who is at Atlantic City.

Vice President B. A. Worthington, accompanied by operating and traffic officers of the Wabash lines east of Toledo, is making a tour of the lines. The party will be accompanied back to Pittsburgh by President P. A. Delano and General Traffic Manager D. O. Ives.

James R. Veitch, assistant general freight agent of the Iowa Central, arrived here last evening and today will meet Harry Corbett, traveling freight agent of the line, of Indianapolis, who is returning from New York, where he met with a painful accident that required a surgical operation.

General Freight Agent F. A. Ogden of the Jones & Laughlin Steel Company, and General Agent J. E. Weller of the Vandalia railroad, went to New York.

General Superintendent Robert Finney of the Baltimore & Ohio is in Baltimore.

No More Lump Sum Appropriations Likely for Agricultural Department.

MUCH DISCRETION ALLOWED

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, Aug. 7.—As a result of recent disclosures concerning affairs in the department of agriculture, congress will consider at its next session the practicability of longer continuing to make "lump sum appropriations" for the various bureaus of that department. Since 1902 congress has appropriated, under 28 separate headings, the total sum of $23,908,350. Except to keep within the general character of the broad headings under which these appropriations were made, Mr. Wilson has had practically unlimited discretion as to their expenditure.

In the annual appropriation bills, at least for the last five years, there has been made for each bureau, division or office, a special provision for salaries. All officers, clerks and employes are enumerated and their respective salaries stipulated. In addition to this there is made an appropriation of a lump sum for general expenses. The appropriation bills simply enumerate a large number of things which may be done by expenditure of this appropriation. For instance, under the head of general expenses of the bureau of forestry, $254,500 is appropriated, "to enable the secretary of agriculture to experiment and to make and continue investigations and to report on forestry, forest reserves, forest fires and lumbering, to seek through investigations and the planting of native and foreign species suitable trees for treeless regions, etc." But just how much or how little he shall expend for each purpose is not stipulated. So it is in the bureaus of plant industry. For vegetables, pathological and physiological investigations $110,000 is appropriated this year.

The lump sum appropriations made for the various bureaus of the department of agriculture, include the employment of assistants. There are few restrictions as to such employment. Besides all this the secretary has been authorized by congress to make such appointments, promotions and changes in pay as he deems necessary for the good of the service, and these expenses are to be borne out of these lump sum appropriations.

VAUDEVILLE AT PARKS.

Pleasure Resorts All Present Good Bills for This Week.

The lover of good vaudeville will find it worth his while to visit Southern and Oakwood park theaters this week. On Southern's program are Buskirk and Rich, who have a comedy musical act that keeps one laughing; Edward Lazelle, slack wire artist; Eckel and Warner, German comedians, and Cotton's Comedy Donkeys. The cinematograph, showing the bomb-throwing Nihilists, closes a tip-top show.

The feature act on Oakwood's bill is the presentation of the two-man minstrel company by Messrs. Mitchell and Marron. Both are good vocalists, which, added to their new and original comedy, made a decided hit. The Chadwick Trio have a 15-minute sketch. The Pryors' musical act, and Al. Waltz, a skatorial and unicycle performer, have good acts. The Counterfeiters are shown by the cinegraph.

Bijou—"Secret Service Sam."

"Secret Service Sam" served in the Philippines and consequently knows a few things about dodging crooks. This is the excuse given in the melodrama of that name for the slick things which Charles T. Aldrich works upon his audience, and incidentally upon the characters in the play. Sam, by the way, has 40 faces, and he uses every one thoroughly. It is a melodrama of sleight-of-hand and legerdemain, as well as one of stirring climaxes, and for this reason is just so much better than those ordinarily seen on the road. All kinds of criminals are mixed up in the business and the work of "yeggmen" in blowing a safe catches the fancy of the audience. The company supporting Mr. Aldrich is vastly superior to that of the ordinary company in melodrama, and the show from beginning to end, despite its rather tawdry title, is better than any of the new popular-priced attractions offered last season at the Bijou. The central figure in the piece is Geoffrey Rockefeller, and much of the action of the play is supposed to take place in his household. It takes no great stretch of the imagination to show that the person is named to typify John D., and the significance is most timely. Nobody can blame the author of the play for appropriating the name which now is on everybody's tongue.

Academy—"The Colonial Belles."

"The Colonial Belles" do not wear their hair in Psyche knots. It happens that the belles have no particular trace of colonial ancestry or anything of that sort, but as a trademark name for a burlesque troupe it is as good as anything that could have been devised. The belles wear about the same kind of togs as any other burlesque organization, and silk tights are not lacking, either as to the cut or the fit. There are two burlesques, and the usual olio of vaudeville stunts. These include Rose Carlin, Nelson and Millege, Charles Robinson, the Farrell-Taylor Trio, Cooke and Barrett and Charles Falke. Altogether it is a good show with good music, good comedy and some very fine acrobatic acts. It is noticeable, however, that not a single new song is offered this year by the burlesquers. At this time in the season it shows little promise for anything in the way of novelties in music, without a popular song at this time. Probably the season has opened too early. This is the only explanation.

Miss Tanguay at Alvin.

Eva Tanguay and her big company of fun-makers arrived here yesterday and at the Alvin are continuing the rehearsals of "The Sambo Girl," which began in New York a week since. Miss Tanguay and her associates are to open their second season at the Alvin on Saturday evening, August 19, and for the next two weeks the Alvin stage will be one of the busiest places in the city of Pittsburgh.

Missing Son Returns Home.

Eugene Keliher, son of Alderman Owen Keliher of the Eighteenth ward, who disappeared mysteriously two years ago, surprised his family by unexpectedly walking in on them. He had left home to visit a friend in Millvale, and when he did not return diligent search for him was made. He said he wanted to see the world, and had gone to Cleveland and secured a position in a railroad office, later being transferred to Cincinnati.

BESSEMER MAKES NEW ORE RECORD

In July the Carnegie Line Hauled 651,207 Tons from Conneaut to the Furnaces.

WILL DO BETTER THIS MONTH

The ore traffic of the Bessemer & Lake Erie railroad last month broke all records for a single month's shipments in the entire history of the road. The ore traffic alone aggregated 651,207 tons. The nearest approach to these figures was in August, 1904, when 645,920 tons were carried. The increase over the next best month was, therefore, 6,287 tons.

The record is the more remarkable by reason of the fact that July contained only 25 working days, whereas August of last year had 27.

That the present month will beat the record of even the one just past is confidently expected. It contains 27 working days and the pace at present is about 50,000 tons a day. It is possible that the total will exceed 660,000.

Likewise, it seems probable that the present season will set a new high-water mark for the Bessemer's ore business. From present indications the total will reach 5,000,000 tons, as compared with last year's record-making figures of 4,087,000.

The road is doing this year a considerably larger coal business than heretofore, the shipments averaging close to 25 per cent larger than last year.

In helping to make the records for the rest of the year the Bessemer will have the use of its 10 new consolidation freight engines just delivered from the Allegheny plant of the American Locomotive Company. It has received also 250 of its order for 1,000 50-ton steel cars from the Standard Steel Car Company, and is receiving cars now at an average rate of 40 a day. These cars are of the gondola type and carry between 41 and 48 tons of coal of various sizes. As they leave the shops at Butler they need to be hauled but 10 miles to the mines of the Great Lakes Coal Company to receive cargoes.

Miss Tucker Recovering.

MANCHESTER, N. H., Aug. 7.—The condition of Miss Mary A. Tucker, the Providence (R. I.) school teacher, who was found in the woods in South Lebanon, Me., yesterday, after having wandered through the country for over a week, was improved today. She is still very weak from exposure and exhaustion.
